

Plants are Useful

LESSON PLAN

SPECIFIC OBJECTIVES

The students will learn about

- food we get from plants
- medicines we get from plants

TEACHING AIDS

A chart containing pictures related to things we get from plants, blackboard, chalk, duster, etc.

TEACHING STRATEGY

- Ask the students to name useful things we get from plants.
- A chart may be used to show the pictures of things we get from plants.
- The teacher may also draw examples from his/her immediate environment.
- The teacher may advise the students to plant more trees and not to cut trees.

BOOST UP

- The teacher may ask the students to prepare a list of things they use in a day and to write the sources of the things.
- The teacher may tell the students about the importance of celebrating Environment Day on 5 June every year.

EXPECTED LEARNING OUTCOMES

The students learn about

- the products that plants give us

EVALUATIVE QUESTIONS

The teacher may ask the following questions to evaluate his/her students.

1. Name two fibres we get from plants.
2. Name two medicines we get from plants.
3. Why spices are used in our food?
