

The Early Humans

6

LESSON PLAN

SPECIFIC OBJECTIVES

The students will learn about

- early humans
- tools of early humans
- cave life of early humans
- invention of fire by early humans
- process of cooking by early humans
- early settlements made by early humans
- beginning of farming by early humans
- domestication of animals by early humans
- beginning of village life by early humans
- pottery of early humans
- wheels and transport of early humans
- the discovery of metal by early humans

TEACHING AIDS

Chart papers, flashcards, blackboard, chalk, duster, pointer, etc.

TEACHING STRATEGY

- First, the teacher will ask the students to solve the exercise given in Warm Up.
- Tell about tools of early humans.
- Tell about the cave life of early humans.
- Tell about the discovery of fire by early humans.
- Tell about the cooking process used by early humans.
- Tell about settlements made by early humans.
- Tell about farming by early humans.
- Tell about domestication of animals by them.
- Tell about village life of early humans.
- Tell about pottery of early humans.
- Tell about wheels and transport of early humans.
- Tell about discovery of metals by early humans.

BOOST UP

- The teacher may show charts.
- The teacher may show flashcards on different topics.
- The teacher may show maps regarding early settlements of early humans.
- The teacher may show pictures of cave paintings.
- Initiate a discussion on the topic given in Think and Answer.

EXPECTED LEARNING OUTCOMES

The students will be able to learn about

- early humans
- tools of early humans
- cave life of early humans
- discovery of fire by early humans
- the process of cooking used by early humans
- early settlements made by early humans
- beginning of farming by early humans
- domestication of animals by early humans
- beginning of village life by early humans
- pottery of early humans
- wheels and transport of early humans
- the discovery of metal by early humans

EVALUATIVE QUESTIONS

The teacher may ask the following questions to evaluate the students.

1. Why were the early humans called gatherers?
2. What were the early tools used by early man?
3. How did village life begin on Earth?
4. How was the wheel useful to early man?
5. How did the discovery of metals change the life of early man?
