#### 3. Tick (✓) the correct answer.

- (i) The standard unit of length is **metre/centimetre**.
- (ii) There are **two/three** hands in a clock.
- (iii) 60 **seconds/minutes** make an hour.
- (iv) **Clinical/Glass** thermometer is used to measure body temperature.
- (v) **Temperature/Weight** is measured in gram.

# Chapter 10: Measurement

## Worksheet 2

### 1. Give one word for the following.

- (i) The amount of liquid which a container can hold
- (ii) The scales which are marked on a thermometer
- (iii) A cloth seller uses this to measure the length of cloth
- (iv) The standard unit of length
- (v) The smallest quantity of anything that can be measured

### 2. Match the following.

#### Column A

- (i) Second
- (ii) Weight
- (iii) Thermometer
- (iv) Kilometre
- (v) Teaspoon

#### Column B

- (a) Gram
- (b) Time
- (c) 5 mL
- (d) Temperature
- (e) Distance

### 3. Answer these questions.

- (i) What is filled in the bulb of thermometer?
- (ii) What is the normal temperature of human body?
- (iii) What are the units of time?
- (iv) What does a tailor use to measure the cloth?
- (v) How many days together make a year?
