

2

Uses of Plants

LESSON PLAN

SPECIFIC OBJECTIVES

The students will learn about

- ✧ food obtained from plants
- ✧ useful things obtained from plants
- ✧ other uses of plants

TEACHING AIDS

Pictures/charts/models/animations on root vegetables, stem vegetables, leaf vegetables, fruit vegetables, flower vegetables; fruits; cereals and pulses; other plant products such as wood, medicines, perfumes, soaps, oils, fibres, etc. (all as given in chapter).

LESSON PLAN

- ✧ Teacher will start the chapter with 'Gear Up' section discussing briefly the man-made and natural things. Teacher will help students to do the given task.
- ✧ Now, with the help of teaching aids, teacher will explain the types of vegetables obtained from different parts of plants (as given in chapter).
- ✧ Teacher will give examples of some fruits (as given in chapter).
- ✧ Teacher will explain foodgrains that they are seeds of plants.
- ✧ Now, to evaluate the learning of students about studied topics, teacher will ask them to solve 'Check Point 1'.
- ✧ Now, teacher will explain different plant products and their uses (as given in chapter).
- ✧ Teacher will tell that plants are also important to animals, birds and insects.
- ✧ Teacher will explain the importance of plants in making the world beautiful.
- ✧ Now, teacher will ask students to solve 'Check Point 2'.
- ✧ At last, teacher will sum up the lesson by going through the points given under the head 'Wrap up now'.
- ✧ Teacher will help students to answer the questions given under the head 'Practice Time'.

BOOST UP

- ✧ Teacher should encourage students to find out which plant part they are eating while having food.
- ✧ Teacher should encourage the students to explore the things made or obtained from plants.
- ✧ Teacher can motivate students to grow more plants in their surrounding and take care of them.

EXPECTED LEARNING OUTCOMES

The students understand and know

- ✧ the plant parts used as food.
- ✧ the useful things obtained from plants.
- ✧ the plants are home to many animals.

EVALUATIVE QUESTIONS

Teacher may ask the following questions for evaluating learning and understanding of students:

1. Where do we get wood from?
2. Where do we get food from?
3. What are cereals?
4. What are pulses?
5. What are medicinal plants?
6. Where do we get sugar from?
