

Chapter 6

Food We Get from Plants

LESSON PLAN

SPECIFIC OBJECTIVES

The students will learn about

- ❖ plants around us
- ❖ types of plants
- ❖ parts of plants as source of food
- ❖ useful plant products

Teaching Aids

Pictures/charts/models/animation on the topics given in the chapter.

Lesson Plan

- ❖ Teacher will start the chapter with 'Gear Up' section discussing briefly about foods obtained from plants and animals.
- ❖ Now, with the help of suitable teaching aids, teacher will discuss different types of plants giving some examples.
- ❖ Now, to test the understanding of students about the topics, teacher will ask them to solve 'Check Point 1'.
- ❖ With the help of suitable teaching aids, teacher will discuss different parts of plants used as source of food.
- ❖ Teacher will discuss useful products obtained from plants.
- ❖ Now, teacher will ask students to solve 'Check Point 2'.
- ❖ At last, teacher will sum up the chapter by going through the points given under the head 'Wrap up now' and revising the 'New Words'.
- ❖ Finally, teacher will help students to solve all the exercises given under the head 'Practice Time'.

Boost Up

- ❖ Teacher should discuss importance of plants as source of food.
- ❖ Teacher should discuss more number of useful products obtained from plants.
- ❖ Teacher should encourage students to carry out activities given in the chapter.
- ❖ Teacher should explain the facts given in 'Knowledge Desk'.

Expected Learning Outcomes

The students understand and know

- ❖ different types of plants found around us.
- ❖ parts of plants used as source of food.
- ❖ useful products obtained from plants.

Evaluative Questions

Teacher may ask the following questions for evaluating learning and understanding of students:

1. What are different types of plants based on shape and size?
2. Name the plants of which leaves are eaten as food.
3. Give some examples of cereals.
4. Flowers of which plants are eaten as food?
5. Name some useful plant products.
