

LESSON PLAN

SPECIFIC OBJECTIVES

The students will learn about

- water as a resource
- the irrigation system
- the conservation of water resources

TEACHING AIDS

Chart papers, flashcards, a projector, blackboard, chalk, duster, pointer, etc.

TEACHING STRATEGY

- Start with Warm Up.
- Discuss water as a resource.
- Discuss the irrigation system.
- Discuss the conservation of water.

BOOST UP

- To make the lesson interesting, the teacher may show chart papers, flashcards or maps.
- The teacher may show the following pictures to advise the students to conserve water.

- The teacher will initiate a discussion on the topic given in Think and Answer.

EXPECTED LEARNING OUTCOMES

The students will be able to understand about

- water as a resource
- the irrigation system
- the conservation of water resources

EVALUATIVE QUESTIONS

The teacher may ask the following questions to evaluate the students.

1. Which water is used in agriculture?
2. What do you understand by irrigation system?
3. What is a Multipurpose River Valley Project?
4. Where are tanks used for irrigation?
5. How can we conserve water?
