# 1. 'I don't have a flower'

## ANSWERS

### WARM UP

Match the flowers with their names.

Hibiscus

Marigold

Chrysanthemum

Jasmine

### READ AND UNDERSTAND

#### A. Tick (✓) the correct answers.

1. What were distributed at the emperor's castle?

(a) Gold coins  (b) Seeds  (c) Fruits

2. Chang loved growing

(a) flowers  (b) vegetables  (c) silkworms

3. The emperor was happy with Chang because he was

(a) dishonest  (b) liar  (c) honest

#### B. Write True or False.

1. The Chinese emperor ruled his country fairly and wisely. True

2. An idea occurred to the emperor when he was sleeping. False

3. Chang was sure that his flower would be the most beautiful. True

4. The emperor admired Chang's flower. False

5. It is all right to be dishonest if no one finds out the truth. False

#### C. Answer these questions.

1. Why was the emperor worried?

**Ans.** The emperor was worried because he was afraid that he wouldn't find a good successor.

2. Why was Chang sad?

**Ans.** Chang was sad because his seed did not flower.

3. How did Chang's father encourage him?

**Ans.** Chang's father encouraged him by saying that he had tried his best and should show the pot to the king.

4. What did Chang tell the emperor?

**Ans.** Chang told the emperor the truth. He told the emperor that in spite of his best efforts, the seed did not grow into a flower.

5. Do you think Chang was the right choice to be the next king? Why?

**Ans.** Yes, because he was an honest and truthful boy.

### THINK AND ANSWER

**D. Why did the seeds not flower?**

**Ans.** Because they were boiled. Boiling kills the baby plant present in the seed.

### GRAMMAR IS FUN

**E. Use the following verbs as infinitives and complete the sentences.**

1. The emperor wanted to find a good sucessor/successor✓.

2. An idea occurred✓/ocurred to him.

3. Strangely✓/strangley the seed did not flower.
4. To everyone’s amazment/amazement✓, the emperor hugged the boy.

## WORD POWER

H. Find ten words connected with honesty in this word grid.

A	J	H	O	N	O	U	R	D	F	G	R	T	L
B	U	S	G	O	O	D	N	E	S	S	I	H	O
O	S	I	N	C	E	R	I	T	Y	P	G	O	Y
K	T	R	T	U	I	O	I	O	L	T	H	N	A
Y	I	F	R	E	W	O	F	D	S	A	T	E	L
P	C	L	K	I	F	A	I	R	N	E	S	S	T
R	E	S	P	O	N	S	I	B	I	L	I	T	Y
F	R	A	N	K	N	E	S	S	N	N	B	Y	I

I. Underline the phrasal verbs in these sentences.

1. Hari is perfectly cut out to be a soldier.
2. I am looking forward to the holidays.
3. My mother never allows us to get away with laziness.
4. Watch out for the next exciting episode!
5. Turn on the lights please.

## LET’S LISTEN

J. Your teacher will read the statements from the listening text or you can listen to them on the Digital Board. Answer Yes or No.

1. No
2. No
3. Yes
4. Yes

## WRITE WELL

N. Think and write of a situation or a day when you lied to your mother but did not get caught. How did you feel? Write a paragraph about it.

Ans. One day, I was playing with a ball in my room. The ball hit a flower vase and it fell down and broke. After some time, my mother came into the room. She was angry to see the broken flower vase. She called me and asked, “Did you break the vase?” I said, “No”. Then I told her that I had seen a cat in the room and it might have broken the vase. My mother did not punish me. Initially, I felt happy but then I began to feel sorry for lying to

my mother. It was very wrong on my part to tell a lie. I went straight to my mother and told her the truth. She patted me and said, "I am really proud of you for telling the truth."

## DICTIONARY SKILLS

**O. Find out the meanings of the following words from the dictionary.**

- Ans.** 1. castle: A large strong building built in the past by a ruler or important person.  
2. advisor: A person who gives advice in a particular field.  
3. amazement: A feeling of wonder or surprise.  
4. hug: To embrace.

## ACTIVITY/PROJECT

**P. Let's make flowers.**

**STEP 1:** Take blue, yellow and red chart papers.

**STEP 2:** Cut blue and yellow papers into strips and cut red paper into circular and semicircular shapes.

**STEP 3:** Fold the blue strips in swirl shape from one side.

**STEP 4:** Paste the blue strips in the corners of the sheet as shown.

**STEP 5:** Paste the yellow strips in the round shape as shown.

**STEP 6:** Fold the yellow strips and paste them from one end to other end as shown.

**STEP 7:** Paste the red semicircles in the corners and circles in the centre. Make dots using yellow colour which enhances the beauty of the flowers.

**Ans.** Do it yourself.

False

3. The money spent on war can be spent on improving the condition of the environment.

True

4. At school, we are taught how to behave in the world.

True

5. We should not hurt other creatures.

True

#### THINK AND ANSWER

D. What is Ozone Hole? How is it harmful to us?

**Ans.** The atmosphere of the Earth is divided into many layers. One of the layers is the stratosphere.

In the stratosphere, there is a thin layer of ozone gas. The ozone layer is like a protective umbrella which protects the Earth from harmful ultraviolet rays (UV). In the 1980s, scientists discovered a hole in the ozone layer. The hole was caused by chlorofluorocarbons (CFCs). These are man-made chemicals and are used in refrigerators, air-conditioners

and aerosol sprays. CFCs damage the ozone layer. UV rays can pass through the ozone hole. These rays can cause skin cancer and eye problems. These rays also harm plants and animals.

## GRAMMAR IS FUN

### **E. Pick out the adverbs in these sentences and tell what kind they are.**

1. I seldom see cricket matches these days.

**Ans.** seldom (Adverb of frequency)

2. Where do you live?

**Ans.** Where (Interrogative adverb)

**Ans.** How (Interrogative adverb)

6. She is never late.

**Ans.** never (Adverb of frequency)

### **F. Fill in the blanks with the correct form of the adverb. One has been done for you.**

1. Rohan runs faster than anyone else in his class. (fast)

2. Nita writes **more neatly** than Rani does. (neatly)

3. No one could sing **more sweetly** than Rina. (sweetly)

4. Whoever can throw the frisbee **the farthest** will get a chocolate. (far)

## SPELL WELL

### **G. Tick (✓) the correct spellings.**

1. Losing✓/Loosing my future is not losing an election or a few points on the stock market.

2. I am not able to breath/breathe✓ the air because I don't know what chemicals are in it.

3. In Canada, we live the privilaged/privileged✓ life with plenty of food, water and shelter.

4. It makes a tremendous✓/treemendous difference where you are born.

5. I challange/challenge✓ you.

## WORD POWER

### **H. Write the full forms of the following abbreviations. One has been done for you.**

1. ECO            Environmental Children's Organisation

2. UN United Nations
3. WHO World Health Corporation
4. BBC British Broadcasting Corporation
5. UNICEF United Nations International Children's Education Fund
6. WWF World Wildlife Fund
7. TERI The Energy Research Institute
8. UNESCO United Nations Educational, Scientific and Cultural Organization

I. Pick suitable suffixes from the box and add to the following words.

ful less ly hood

- |                           |                         |
|---------------------------|-------------------------|
| 1. child <u>hood/less</u> | 2. care <u>less/ful</u> |
| 3. wild <u>ly</u>         | 4. pain <u>ful/less</u> |
| 5. joy <u>less/ful</u>    | 6. regular <u>ly</u>    |

## LET'S LISTEN

J. Your teacher will read the passage from the listening text or you can listen to it on the Digital Board. Listen to it carefully and answer the questions orally.

1. What is the greenhouse effect?

**Ans.** Activities such as burning of coal, diesel, petrol and natural gas have increased the amount of greenhouse gases like carbon dioxide and methane in the air. They are good at absorbing heat. This is called the greenhouse effect.

2. What is global warming?

**Ans.** The rise in the temperature of the Earth due to the increased greenhouse effect is called global warming.

3. What are the harmful effects of global warming?

**Ans.** The harmful effects of global warming are as follows:

- It destroys crops and affects the life cycles of plants and animals.
- It causes storms and floods. It causes glaciers and ice sheets to melt at the North Pole and South Pole.

## WRITE WELL

N. Write a paragraph of 60–70 words on this picture.

**Ans.** The picture shows how smoke from factories is contributing towards air pollution. Air pollution is very harmful. Polluted air can lead to respiratory diseases. To reduce pollution, filters should be used in the chimneys of factories. The factories should be located far away from human settlements. Cottage industries and small-scale industries should be given preference over large-scale industries.

### ACTIVITY/PROJECT

**O. Discuss in the class the role children can play in saving the environment.**

**Ans.** Do it yourself.

**P. Make a poster on the topic 'Stop Pollution to Save Earth'.**

**Ans.** Do it yourself.

## 2. Sophie (Poem)

### ANSWERS

#### READ AND UNDERSTAND

##### A. Tick (✓) the correct answers.

**Ans.** We can utilise waste material by reusing or recycling it. We can share things with needy people.

5. Why did Mary Kom keep her interest in boxing a secret from her parents?

**Ans.** Mary Kom kept her interest in boxing a secret because boxing was not considered a good sport for women.

## 4. Three Important Questions

### ANSWERS

#### WARM UP

After returning from school, you had lunch and an hour to relax/rest.

According to prior plans,

(a) a close friend was to pay you a visit.

(b) your younger brother wanted you to play video games with him.

(c) you wanted to watch TV but suddenly, your grandfather slips and falls in the living room.

Think about all the work that needed your immediate attention within that hour and set your own priorities. Number the above tasks and persons in the order of their importance.

**Ans.** Discuss the prioritisation in the class – how to handle the activities and in what order. Ideally, Grandpa's fall should be number 1, then the guest and finally the video games.

#### READ AND UNDERSTAND

##### **A. Tick (✓) the correct answers.**

1. The three things the king wanted to know were

(a) the right time to begin everything

(b) the right people to listen to

(c) the most important thing to do

(d) all that has been mentioned above

2. How did the king approach the hermit?

(a) The king ordered the hermit to be arrested and brought to his court.

(b) The king went to the hermit and offered him riches for answers to his questions.

(c) The king dressed as a common man and approached the hermit with great respect, as well as offered to dig the ground for him.

(d) The king disguised himself as another hermit.

3. When the bearded man woke up in the morning,

(a) he attacked the king and tried to kill him.

(b) he pleaded with the king for forgiveness and explained why

he repented his plan and attempt to kill him.

(c) he threatened the king and demanded a part of his kingdom.

(d) he was arrested by the king's guards.

**B. Fill in the blanks with suitable words.**

In reply to the first question, some stated that one must plan everything in **advance** and **live** according to it. Others said that one should not be engrossed in **idle pastimes** but attend to what was **going** on. Some held the view that he should consult a **council of wisemen**, while others said it was not **practical**. Some also suggested that he should consult only **magicians**.

**C. Answer with reference to the context.**

1. "Here comes a man running. Let us see who he is."

(a) Who said these words and to whom?

**Ans.** The hermit said this to the king.

(b) What happened immediately after this?

**Ans.** Immediately after this, a man who was injured and bleeding came running out of the forest and fell down moaning.

(c) Who is the 'man' being referred to? Why was he running?

**Ans.** The man was an enemy of the king. His brother had been executed and his property seized by the king. The man wanted to take revenge by killing the king. He was running from the king's bodyguards who had recognised him and attacked him.

2. "You have already been answered, I know for certain!"

(a) Who said these words and to whom?

**Ans.** These words were said by the hermit to the king.

(b) Was the speaker right in saying so?

**Ans.** Yes, the speaker was right in saying so.

(c) Was the person spoken to satisfied with this reply?

**Ans.** The king, to whom this was said, was satisfied with the reply.

**D. Answer the following questions.**

1. What were the various answers given to the king's second question?

**Ans.** In answer to the king's second question, the various answers were that he should consult his councillors, priests, doctors or warriors.

2. State the views expressed by different persons in reply to the king's third question.

**Ans.** To the third question, people suggested that science was the most important task, while others said that warfare was the most important and yet others said that religion was the most important.

3. How did the king help the bearded man?

**Ans.** The king cleaned and bandaged the bearded man's wound.

4. Why had the bearded man decided to kill the king?

**Ans.** The king had executed the bearded man's brother and seized his property. Therefore, he wanted to take revenge by killing the king.

5. According to the hermit, what was the most important job, person and time when the bearded man ran out of the wood towards the king?

**Ans.** According to the hermit, the most important time is now; the task in hand is the most important; and the person with whom you are at present is the most important person.

### THINK AND ANSWER

**E. Do you think the hermit was truly wise? What did he finally tell the king to always remember? Do you agree with him?**

**Ans.** Do it yourself.

**Ans.** Leo Tolstoy died of pneumonia.

## WRITE WELL

**P. Imagine your teacher scolded you for something which you had not done. Write a diary entry stating your feelings.**

**Ans.** 25 February 2020

Today, our class teacher, Neha Ma'am scolded me for something I had not done. Actually, my benchmate, Anmol was trying to take my new eraser. I was telling him not to do so. Neha Ma'am thought that we were fighting. She asked me to come in front of the class. She scolded me in front of the whole class. I tried to explain but she did not listen. I had tears in my eyes. I came back to my seat and the whole day I was in a sad mood.

**Q. Kiran is about to leave home and will not be able to meet Varun. She leaves a message for him. Write the message in not more than 50 words.**

### MESSAGE

20 January 2020

9.30 a.m.

Varun

I am leaving home because I have to meet someone urgently. I will call you in the evening at 6.00 p.m.

Kiran

**R. Work in groups of five and make a list of any four persons who do different kinds of work in your school. Talk to them and find out what they like about their work. Also, find out why they think their work is important.**

**Ans.** Do it yourself.

presence

# 5. The Happy Man's Shirt

## ANSWERS

### WARM UP

Tick (✓) the correct option.

To keep healthy, we should

1. exercise every day

2. sleep fifteen hours every day

3. eat junk food

4. eat green vegetables and fruits

5. overeat

### READ AND UNDERSTAND

A. Tick (✓) the correct answers.

1. The king was

(a) wealthy but not healthy

(b) healthy but not wealthy

(c) neither wealthy nor healthy

2. The old man told the King to sleep for \_\_\_\_\_ night(s) in the shirt of a happy man.

(a) two

(b) one

(c) three

3. The man having no shirt was

(a) unhappy

(b) happy

(c) neither happy nor sad

4. Hard work and simple life can make a person

(a) happy

(b) wealthy

(c) unhappy

B. Write True or False.

1. The King had been in the bed for six years.

False

2. The cause of the King's disease could not be found out.

True

3. There were many happy men in the King's kingdom.

False

4. Hard work leads to unhappiness. False
5. The happy man lived a simple life and worked hard. True
6. The King was able to get the happy man's shirt. False

**C. Answer these questions.**

1. Why were the King's councillors and courtiers worried?

**Ans.** The King's councillors and courtiers were worried because the king was not getting well in spite of having tried all medicines.

2. Why could the doctors not cure the King?

**Ans.** The doctors could not cure the King because they were not able to find out the cause of his disease.

3. What did the old man suggest to the King for the cure of his disease?

**Ans.** The old man suggested to the King that he should sleep just one night in the shirt of a happy man.

4. Why was the man with no shirt happy?

**Ans.** The man with no shirt was happy because he worked hard and had no time to worry unnecessarily. He lived a simple and carefree life.

5. How was the King cured?

**Ans.** The King was cured when he understood that he needed to work hard and lead a simple life to become healthy.

THINK AND ANSWER

**D. Do you think 'Health is Wealth'? Give reasons for your answer.**

**Ans.** Health is wealth because a sick man cannot enjoy anything. A sick person cannot carry out his/her duties properly and he/she has to be dependent on others. A healthy man/woman is cheerful and brings joy wherever he/she goes. Thus, we see that health is wealth.

GRAMMAR IS FUN

**E. Choose suitable question tags from the Help Box and complete the following sentences.**

aren't you   won't they   can't you   shouldn't we   isn't it

1. They will play in the park, won't they?

**D. Change the following words into adverbs and use them in sentences of your own.**

1. quick: quickly                    The cat ran quickly after the mouse.
2. nervous: nervously            The magician looked nervously at the audience while performing the difficult trick.
3. smart: smartly                   He was dressed smartly for the interview.
4. intelligent: intelligently      The parrot used the tools intelligently to get the food.
5. cautious: cautiously           Sunil walked cautiously on the slippery road.
6. careless: carelessly            He spent the money carelessly.
7. sweet: sweetly                   She sang the song sweetly.
8. faithful: faithfully             The robber faithfully returned the stolen watch.
9. sincere: sincerely              Arun worked sincerely on the project.
10. confident: confidently       Priya answered all the questions confidently.

### GRAMMAR WORKSHEET 3

#### **Indian Women shine at the olympics**

#### **Active and Passive Voice**

**A. Identify whether the following sentences are in the active or passive voice. Tick (✓) 'A' for Active and 'P' for Passive.**

1. All the passengers of the aircraft were killed in the air crash. (A/P✓)
2. He writes articles for various magazines and newspapers. (A✓/P)
3. Almost all the unauthorised colonies have now been regularised. (A/P✓)
4. The speaker had finished his address before I reached the venue. (A✓/P)
5. There are plenty of branch offices of many multinational companies in Noida and Gurgaon. (A/P✓)

**B. Change these sentences to the passive voice.**

1. Shanta sells apples in the market.

**Ans.** Apples are sold by Shanta in the market.

2. The children sold tickets at the gate.

**Ans.** Tickets were sold by the children at the gate.

3. The poor man wore a torn coat.

**Ans.** A torn coat was worn by the poor man.

4. The electrician will repair the fault in the evening.

**Ans.** The fault will be repaired by the electrician in the evening.

5. The birds have built a nest in the bushes.

**Ans.** A nest has been built by the birds in the bushes.

**C. Write these sentences in the active voice.**

1. The milk was spilt by the cat.

**Ans.** The cat spilt the milk.

2. The plants were watered by the gardener.

**Ans.** The gardener watered the plants.

3. Rima was given a car by her father.

**Ans.** Rima's father gave her a car.

4. The king was welcomed by the people.

**Ans.** The people welcomed the king.

5. The sandwiches were made by the boys.

**Ans.** The boys made the sandwiches.

**D. Tick (✓) 'Yes' if it is possible to change a sentence into passive voice and 'No' if it is not possible.**

1. She is a good dancer. (Yes/No✓)

2. Children play in the evening. (Yes/No✓)

3. Her mother has donated all her father's earnings to a charitable trust. (Yes✓/No)

4. Our teacher has written many books on spoken English. (Yes✓/No)

## GRAMMAR WORKSHEET 4

### Three Important Questions

#### Reported Speech

**A. Change the following sentences from direct speech to indirect speech.**

1. Rohan said, "I will play in the park with Binny."

**Ans.** Rohan said that he would play in the park with Binny.

2. Sumeet said, "The thief ran away."

**Ans.** Sumeet said that the thief had run away.

3. Avni said to Sid, "Murali is playing basketball."

**Ans.** Avni told Sid that Murali was playing basketball.

4. Mini said, "Raman eats an apple every day."

**Ans.** Mini said that Raman ate an apple every day.

5. Mrs Mehra said to the girls, "Stop writing now."

**Ans.** Mrs Mehra told the girls to stop writing then.

**B. Change the following sentences from indirect speech to direct speech.**

1. Rima asked her mother if she could go out to play.

**Ans.** Rima said to her mother, "Can I go out to play?"

2. Anju said that her mother was resting.

**Ans.** Anju said, "Mother is resting."

3. Mansi said that she would meet me the next day.

**Ans.** Mansi said, "I will meet you tomorrow."

4. Soha said that Sadiq would go out.

**Ans.** Soha said, "Sadiq will go out."

5. Ramesh said that Meena had eaten some porridge.

**Ans.** Ramesh said, "Meena has eaten some porridge."

### **C. Report the following sentences. Follow the model.**

**Model:** The teacher told her parents that she was very intelligent but lazy.

1. She is very beautiful but hasn't much aesthetic sense.

**Ans.** They/Everyone said that she was very beautiful but hadn't much aesthetic sense.

2. The mobile will never work again if you keep repairing it every now and then yourself.

**Ans.** He said that the mobile would never work again if I kept repairing it every now and then myself.

3. All the guests and invitees left last evening after the programme was over.

**Ans.** I was told that all the guests and invitees had left last evening after the programme was over.

4. I must go to Patna next week to know his whereabouts.

**Ans.** I said that I must go to Patna next week to know his whereabouts.

5. You may have to stay in bed for about a month due to this plaster.

**Ans.** The doctor said that I might have to stay in bed for about a month due to that plaster.

## GRAMMAR WORKSHEET 5

### **The Happy Man's Shirt**

#### **Question tags, More about Direct and Indirect Speech**

##### **A. Report the following questions.**

1. Shiraz said to Saba, "Where is your drawing book?"

**Ans.** Shiraz asked Saba where her drawing book was.

2. Divya said to Hitesh, "Who is the new class monitor?"

**Ans.** Divya asked Hitesh who the new monitor was.

3. Josephine said to Siddhi, "Why was everyone shouting?"

**Ans.** Josephine asked Siddhi why everyone was shouting.

4. Father said, "When will Rita's exams begin?"

**Ans.** Father enquired when Rita's exams would begin.

5. Tony said, "Who is making a noise?"

**Ans.** Tony asked who was making a noise.

**B. Tick (✓) the correct options.**

1. He said to her, "Why is the auditorium crowded?"

He (asked✓/said) her why the auditorium (was✓/had been) crowded.

2. The teacher said to the student, "Where is your holiday homework?"

The teacher (asked✓/enquired) the student where his holiday homework (is/was✓).

3. Mother said to Mini, "Who was knocking at the door?"

Mother (asked✓/wanted to know) Mini who (had been✓/had) knocking at the door.

**C. Change these sentences into questions by adding question tags. Remember, we use positive tags with negative statements and negative tags with positive statements.**

1. Thierry Henry is a great football player.

**Ans.** Thierry Henry is a great football player, isn't he?

2. Gary Sobers is the greatest all-rounder the world has known.

**Ans.** Gary Sobers is the greatest all-rounder the world has known, isn't he?

3. It never snows in the plains of India.

**Ans.** It never snows in the plains of India, does it?

4. Winters are cold in north Japan.

**Ans.** Winters are cold in north Japan, aren't they?

5. Grammar is great fun.

**Ans.** Grammar is great fun, isn't it?

6. Modern computers are very powerful.

**Ans.** Modern computers are very powerful, aren't they?

7. The Shatabdi Express is never late.

**Ans.** The Shatabdi Express is never late, isn't it?

8. Lazy people do not get much work done.

**Ans.** Lazy people do not get much work done, do they?

**D. Write correct questions tags.**

1. You are very late, aren't you?

2. Sonu sang well, didn't he?

3. He always speaks the truth, doesn't he?

4. They will win the match, won't they?

5. It is a very tasty dish, isn't it?

# 1. Percentage and Average

## ANSWERS

### EXERCISE 1.1

- A. Observe the following square grid and write the fraction and percentage that different shades represent.

	Fraction	Percentage
1. Pink	$\frac{7}{100}$	$\frac{7\%}{100}$
2. Orange	$\frac{16}{100}$	$\frac{16\%}{100}$
3. Purple	$\frac{11}{100}$	$\frac{11\%}{100}$
4. Blue	$\frac{19}{100}$	$\frac{19\%}{100}$
5. Green	$\frac{10}{100}$	$\frac{10\%}{100}$

What part of the grid is unshaded in the above square grid? Also, express it into percentage.

Ans.  $\frac{37}{100}$   $\frac{37\%}{100}$

- B. Convert the following fractions into percentages.

1. $\frac{3}{4}$	2. $\frac{7}{20}$	3. $\frac{4}{25}$	4. $\frac{18}{5}$	5. $\frac{43}{50}$
6. $\frac{17}{30}$	7. $\frac{3}{10}$	8. $\frac{6}{15}$	9. $\frac{40}{70}$	10. $\frac{35}{80}$

Ans. 1. 75%    2. 35%    3. 16%    4. 360%    5. 86%  
 6.  $56\frac{2}{3}\%$     7. 30%    8. 40%    9.  $57\frac{1}{7}\%$     10.  $43\frac{3}{4}\%$

- C. Convert the following percentages into fractions:

1. 50%	2. 20%	3. 40%	4. 90%	5. 65%
6. 48%	7. $12\frac{1}{2}\%$	8. $33\frac{1}{3}\%$	9. $16\frac{2}{3}\%$	10. $6\frac{1}{4}\%$

Ans. 1.  $\frac{1}{2}$     2.  $\frac{1}{5}$     3.  $\frac{2}{5}$     4.  $\frac{9}{10}$     5.  $\frac{13}{20}$   
 6.  $\frac{12}{25}$     7.  $\frac{1}{8}$     8.  $\frac{1}{3}$     9.  $\frac{1}{6}$     10.  $\frac{1}{16}$

- D. Solve the following word problems.

1. Namita hanged 100 balloons on her birthday. 35 out of 100 balloons were burst. What percentage of balloons was left?

Ans. 65%

2. Kalpana spent ₹25 out of her pocket money of ₹100. Express her savings in percentage.

Ans. 75%

3. Out of a class of 50 students, 45 students passed in Mathematics. What is the percentage of students who passed in Mathematics?

Ans. 90%

4. Out of 24 school days in a month, Riya was absent for 3 days. What was her percentage of attendance in the month?

Ans.  $87\frac{1}{2}\%$

### EXERCISE 1.2

A. Match the following.

**Decimals**

**Fractions**

**Percentages**

B. Convert the following decimals into percentages.

1. 0.6                      2. 0.38                      3. 0.09                      4. 0.245

5. 1.2                      6. 2.50                      7. 12.5                      8. 8.75

Ans. 1. 60%                      2. 38%                      3. 9%                      4. 24.5%

5. 120%                      6. 250%                      7. 1250%                      8. 875%

C. Convert the following percentages into decimals.

1. 40%                      2. 11%                      3. 5%                      4. 234%

5. 4.2%                      6. 0.7%                      7. 82.5%                      8. 112.4%

Ans. 1. 0.4                      2. 0.11                      3. 0.05                      4. 2.34

5. 0.042                      6. 0.007                      7. 0.825                      8. 1.124

D. Find the value of:

1. 10% of ₹80                      2. 5% of 60 kg                      3. 15% of 250 m

4. 25% of 160 L                      5.  $33\frac{1}{3}\%$  of a dozen                      6. 18% of 750

Ans. 1. ₹8                      2. 3 kg                      3. 37.5 m

4. 40 L                      5. 4 items                      6. 135

**E. Fill in the blanks.**

1. 25% of 53 = 53% of 25.
2. 12% of 24 = 24 % of 12.
3. 9% of 63 = 63% of 9.
4. 45 % of 29 = 29% of 45.

**F. Solve the following word problems.**

1. In a class of 40 students, 60% are girls and rest are boys. Find the number of girls and boys in the class.

**Ans.** 24 girls and 16 boys

2. In a tray, there are 40 eggs. If 5% eggs are rotten, find the number of fresh eggs in the tray.

**Ans.** 38 eggs

3. David was asked to solve 25 questions. He solved 80% of the assignment without his parents' help. How many questions did he solve with his parents' help to complete the assignment?

**Ans.** 5 questions

4. Out of 72 berths in the coach of a train, 18 berths are reserved for ladies, 14 are occupied by children. What per cent of the berths are available for other passengers?

**Ans.**  $55\frac{5}{9}\%$

5. Which amount is more—60% of ₹120 or 75% of ₹108?

**Ans.** 75% of ₹108

**EXERCISE 1.3**

**A. Find the average of each of the following.**

1. First four odd numbers

**Ans.** 4

2. First six even numbers

**Ans.** 7

3. First five prime numbers

**Ans.** 5.6

4. First 8 composite numbers

**Ans.** 11.75

5. First 7 multiples of 8

**Ans.** 32

6. All factors of 24

**Ans.** 7.5

**B. Solve the following word problems.**

1. The weights of 10 children are given below:

35 kg, 28 kg, 40 kg, 32 kg, 30 kg, 38 kg, 35 kg, 32 kg, 38 kg, 36 kg

Find the average weight of them.

**Ans.** 34.4 kg

2. The rainfall in a city during a week was recorded as follows:

Days	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
Rainfall (in mm)	22	16	18	20	23	27	14

Find the average rainfall during a week.

**Ans.** 20 mm

3. The sum of maximum temperatures for five days is  $205^{\circ}\text{C}$ . Find the average temperature.

**Ans.**  $41^{\circ}\text{C}$

4. The average height of three girls is 135 cm. The two girls have heights 128 cm and 137 cm respectively. Find the height of the third girl.

**Ans.** 140 cm

5. The average capacity of 4 vessels is 250 mL. If one more vessel is included, the average capacity becomes 300 mL. Find the capacity of the included vessel.

**Ans.** 500 mL

6. Mikki brought 15 marbles and her sister Nikki brought 23 marbles from the market. Their mother mixed those marbles and gave them equally. How many marbles did each sister get?

**Ans.** 19 marbles

7. A grocer bought three types of mangoes weighing 7 kg, 4 kg and 7 kg respectively. Then, he packed them in three boxes of equal weight. Find the weight of mangoes in each box.

**Ans.** 6 kg

**THINK AND ANSWER**

Kamla earns ₹10,500 per month. Her expenses for six months are ₹8,500, ₹9,000, ₹7,200, ₹8,300, ₹9,700, and ₹9,400. What is her average savings?

**Ans.** ₹1833.33

**VALUE CORNER**

Mr Dhawan gives 1% of his income as a donation to an orphanage. Also, he gives 2.5% of remaining income to other NGOs as a donation. If his monthly income is ₹50,000, find the amount of donations given to these organisations in a year.

**Ans.** ₹20,850

## 2. Ratio, Proportion and Unitary Method

### ANSWERS

#### EXERCISE 2.1

**A. Express each of the following ratios in its simplest form.**

1. 8:12                      2. 9:21                      3. 10:30                      4. 20:50  
5. 80:120                      6. 35:63                      7. 27:72                      8. 48:132

- Ans.** 1. 2:3                      2. 3:7                      3. 1:3                      4. 2:5  
5. 2:3                      6. 5:9                      7. 3:8                      8. 4:11

**B. Is it possible to find the ratio of the following? If yes, find the ratio.**

1. 8 L to 20 m                      2. 60 m to 150 m                      3. 160 kg to 300 kg                      4. 160 g to ₹200  
5. 5 weeks to 7 days                      6. 6 L to 750 mL                      7. a paisa to a rupee                      8. 9 mm to 3 cm  
9. 1 h to 45 min

- Ans.** 1. No                      2. Yes, 2:5                      3. Yes, 8:15                      4. No  
5. Yes, 5:1                      6. Yes, 8:1                      7. Yes, 1:100                      8. Yes, 3:10  
9. Yes, 4:3

**C. Write any three equivalent ratios for each of the following.**

1. 1:2                      2. 3:4                      3. 12:18                      4. 40:30  
5. 9:12                      6. 16:36                      7. 120:300                      8. 350:700

- Ans.** 1. 2:4, 3:6, 4:8                      2. 6:8, 9:12, 15:20                      3. 2:3, 4:6, 6:9                      4. 4:3, 8:6, 80:60  
5. 3:4, 6:8, 15:20                      6. 4:9, 8:18, 12:27                      7. 2:5, 4:10, 12:30                      8. 1:2, 2:4, 35:70

**D. Simmi is 10 years old and her mother is 35 years old. Compare their ages using ratio.**

**Ans.** 2:7

**E. Out of 60 students in a class, 36 are boys. On last Monday, only 48 students were present in which 20 were girls. Using this information, find the ratio of:**

1. total boys:total girls in the class

**Ans.** 3:2

2. total girls:total students in the class

**Ans.** 2:5

3. total students in the class:students present on Monday

**Ans.** 5:4

4. present girls:present boys on Monday

**Ans.** 5:7

	Students	Boys	Girls
Total	60	36	24
Present	48	28	20
Absent	12	8	4

5. absent boys:total boys in the class

Ans. 2 : 9

6. total girls in the class:present girls on Monday

Ans. 6 : 5

7. absent girls:total absent students on Monday

Ans. 1 : 3

F. Anand gets ₹500 as a pocket money for a month. He saves ₹125 during that month. Find the ratio of his:

1. expenses:savings

Ans. 3 : 1

2. expenses:total amount

Ans. 3 : 4

3. total amount:savings

Ans. 4 : 1

G. There is 750 mL of water in a bottle. The bottle can contain 1,200 mL of water in all. Find the ratio between the empty part to the filled part of the bottle.

Ans. 3 : 5

H. Observe the following shapes and find ratios.

(a) AB:BC

(b)  $(AB - AD):(AB + AD)$

(a) AB:BC (b) BC:AC (c) AB:AC

(d) Are  $(BC - AB):AB$  and  $AB:(BC + AC)$  equal?

Ans. 1. (a) 3 : 2 (b) 1 : 5

2. (a) 3 : 4 (b) 4 : 5 (c) 3 : 5 (d) Yes, as  $3 : 9 = 9 : 27$

## EXERCISE 2.2

A. Check whether the following numbers form a proportion.

1. 5, 7, 9, 11

2. 2, 3, 4, 6

3. 10, 15, 20, 30

4. 12, 15, 40, 50

5. 8, 15, 20, 32

6. 6, 18, 21, 36

Ans. 1. No

2. Yes

3. Yes

4. Yes

5. No

6. No

B. Express each set of numbers in a proportion.

1. 6, 9, 12, 8

2. 2, 8, 4, 16

3. 4, 10, 35, 14

4. 5, 3, 6, 10                      5. 8, 4, 2, 1                      6. 15, 45, 27, 9
- Ans. 1.  $6 : 9 :: 8 : 12$                       2.  $2 : 8 :: 4 : 16$                       3.  $4 : 10 :: 14 : 35$
4.  $3 : 5 :: 6 : 10$                       5.  $8 : 4 :: 2 : 1$                       6.  $15 : 45 :: 9 : 27$

**C. Find the missing terms.**

1.  $3:8::9:\boxed{24}$                       2.  $15:12::\boxed{5}:4$                       3.  $6:\boxed{21}::4:14$
4.  $1:5::\boxed{9}:45$                       5.  $\boxed{2}:11::10:55$                       6.  $13:\boxed{11}::26:22$

**D. Solve the following word problems.**

1. In a cupboard, the number of books in Hindi and English are in the ratio 5:7. There are 75 books in Hindi. How many books are in English?
- Ans. 105 books
2. Pratham and Monika collected a number of shells in the ratio 13:16. If Pratham collected 52 shells, find the number of shells collected by Monika.
- Ans. 64 shells
3. Mr Kalra earns ₹60,900 per month. His expenses and savings are in the ratio 11:4. Find his savings for a month and a year.
- Ans. ₹4060, ₹48720
4. Tapshi and Megha contributed some money in the ratio 4:5 for buying a gift of ₹360. Find their contributions.
- Ans. Tapshi ₹160, Megha ₹200
5. A bag full of potatoes and tomatoes weighs 15 kg. The potatoes and tomatoes are in the ratio 1:4. Find the weight of each vegetable.
- Ans. Cauliflowers-3 kg, Cabbages-12 kg

**EXERCISE 2.3**

**A. Solve the following word problems.**

1. The weight of a cricket ball is 150 g, find the weight of 6 such balls.
- Ans. 900 g
2. A bottle contains 250 mL of milk. How much milk is there in 11 such bottles?
- Ans. 2 L 750 mL
3. Durga reads 287 pages in 7 days. How many pages does she read per day?
- Ans. 41 pages
4. A tray of 48 eggs costs ₹192. Find the cost of each egg.
- Ans. ₹4
5. The cost of 8 ice creams is ₹200. Find the cost of 10 ice creams.
- Ans. ₹250
6. The cost of a packet of 10 capsules is ₹83. If Rita buys 6 capsules, how much does she pay to the shopkeeper?
- Ans. ₹49.80

7. Which is cheaper—4 chocolates for ₹32 or 10 chocolates for ₹70?

**Ans.** Second option, 10 chocolates for ₹70

8. A typist types 600 words in 30 minutes. How many words can she type in 1 hour 5 minutes?

**Ans.** 1300 words

9. Ansh solves 15 sums in 1 hour. How long will he take to solve 25 such sums?

**Ans.** 1 hour 40 minutes

10. A bike covers a distance of 225 km using 3 L of petrol. How much petrol will it need to cover a distance of 375 km?

**Ans.** 5 L

**B. In each of the following, which is a better deal?**

1.

2 kg surf for ₹165

or

5 kg surf for ₹400

**Ans.** 5 kg surf for ₹400

2.

3 toothbrushes for ₹99

or

4 toothbrushes for ₹125

**Ans.** 4 toothbrushes for ₹125

### THINK AND ANSWER

1. Perimeter of a rectangular plot is 220 m. Its length and breadth are in the ratio 15:7. Find the measure of length and breadth of the plot.

**Ans.** 75 m, 35 m

2. A triangular park is fenced thrice using barbed wire of length 720 m. The three sides of the park are in the ratio 3:4:5. Find the length of each side of the park.

**Ans.** 60 m, 80 m, 100 m

3. Ansh purchased 11 pens for ₹165 and Mala purchased 8 pens for ₹96. Who gets the pen cheaper?

**Ans.** Mala

## 3. Profit/Loss and Bills

### ANSWERS

#### EXERCISE 3.1

##### A. Calculate the profit or loss in the following.

1. C.P. = ₹35, S.P. = ₹50
2. C.P. = ₹120, S.P. = ₹102
3. S.P. = ₹650, C.P. = ₹605
4. S.P. = ₹927.50, C.P. = ₹792.50
5. C.P. = ₹6,000, S.P. = ₹5,905
6. S.P. = ₹10,500, C.P. = ₹11,200

- Ans. 1. Profit = ₹15                      2. Loss = ₹18                      3. Profit = ₹45  
4. Profit = ₹135                      5. Loss = ₹95                      6. Loss = ₹700

##### B. Find the cost price in each of the following.

1. S.P. = ₹25, Profit = ₹8
2. S.P. = ₹28, Loss = ₹2.50
3. S.P. = ₹150, Loss = ₹10
4. S.P. = ₹780, Profit = ₹30
5. Profit = ₹605, S.P. = ₹15,800, repairing cost = ₹295
6. Maintenance = ₹250, Loss = ₹100, S.P. = ₹9,100

- Ans. 1. ₹17                                  2. ₹30.50                                  3. ₹160  
4. ₹750                                      5. ₹14,900                                  6. ₹8,950

##### C. Find the selling price in each of the following.

1. C.P. = ₹77, Profit = ₹7
2. C.P. = ₹240, Loss = ₹10
3. C.P. = ₹600.75, Loss = ₹71.25
4. C.P. = ₹5,420, Profit = ₹460
5. Transportation = ₹80, C.P. = ₹800, Profit = ₹70
6. C.P. = ₹69,000, Profit = ₹5,490, repairing cost = ₹2,850

- Ans. 1. ₹84                                      2. ₹230                                      3. ₹529.50  
4. ₹5,880                                      5. ₹950                                      6. ₹77,340

##### D. Solve the following word problems.

1. Aditya bought a bicycle for ₹2,500 and sold it for ₹2,750. Find his gain or loss.

Ans. Gain = ₹250

2. A bike was sold for ₹42,500 making a profit of ₹2,700. Find the cost price of the bike.

Ans. ₹39,800

3. Nagma sold her sewing machine for ₹3,500 and she incurred a loss of ₹400. What was the cost price of the sewing machine?

Ans. ₹3,900

4. Varun bought an old car for ₹68,900 and spent ₹10,100 on its repairing. At what price would he sell so that he earns a profit of ₹15,000?

Ans. ₹94,000

5. Nitin bought a CD Player for ₹5,400 and sold it for ₹5,100. Find the profit or loss he made.

Ans. Loss = ₹300

6. A farmer bought a cow for ₹16,800 and a goat for ₹3,200. He sold both for ₹24,600. Find the profit or loss.

Ans. Profit = ₹4,600

### EXERCISE 3.2

#### A. Complete the following table.

S.No.	C.P.	S.P.	Profit	Loss	Profit%/Loss%
1.	₹25	₹35	<u>₹10</u>	<u>×</u>	<u>40%</u>
2.	₹80	₹72	<u>×</u>	<u>₹8</u>	<u>10%</u>
3.	₹120	<u>₹156</u>	₹36	×	<u>30%</u>
4.	<u>₹800</u>	₹700	×	₹100	$12\frac{1}{2}\%$
5.	₹9,000	<u>₹8,550</u>	×	₹450	<u>5%</u>
6.	<u>₹37,500</u>	₹50,000	₹12,500	×	$33\frac{1}{3}\%$

#### B. Solve the following word problems.

1. A television is sold at a profit of 12%. If the cost price of the television is ₹8,000, find its selling price.

Ans. ₹8,960

2. A washing machine costing ₹6,500 was sold at a loss of 8%. Find its selling price.

Ans. ₹5,980

3. A trader bought two cows for ₹10,500 and ₹12,000 respectively. He sold both the cows for ₹25,000. Find his profit or loss per cent.

Ans. Profit =  $11\frac{1}{9}\%$

4. Manju bought a laptop for ₹25,000. What should be the selling price of the laptop so as to make a profit of 16%?

Ans. ₹29,000

5. Aryan bought an old car for ₹80,000 and spent ₹10,000 for its repairing. Then, he sold it making a profit of 15%. Find the selling price of the car.

Ans. ₹1,03,500

6. A businessman sold an article for ₹1,650 making a profit of 10%. Find the cost price of the article.

**Ans.** ₹1,500

7. A shopkeeper sold a bed for ₹12,600 incurring a loss of 10%. Find the cost price of the bed.

**Ans.** ₹14,000

8. What would be the cost price of a computer sold for ₹24,440 at a loss of 6%?

**Ans.** ₹26,000

9. Manisha bought a bicycle for ₹2,800 and sells it at a loss of 8%. How much does she sell it for?

**Ans.** ₹2,576

10. A cupboard is bought for ₹2,500 and sold at ₹3,000. Find the profit or loss in this transaction. Also, find its percentage.

**Ans.** Profit = ₹500, 20%

11. A packet of 10 pencils is bought for ₹15. Each loose pencil is sold for ₹1.50. Find the profit or loss per cent on a packet of pencils.

**Ans.** No profit or loss

12. A grocer bought 5 dozen of apples at the rate of ₹60 per dozen. He sold all the apples at a profit of 25%. What was the selling price of each apple?

**Ans.** ₹6.25/apple

13. Naveen bought a computer for ₹20,000 and sold it to Pawan at a profit of 10%. If Pawan sold it to Rajni at a profit of 12%, how much did Rajni pay for it?

**Ans.** ₹24,640

### EXERCISE 3.3

#### A. Complete the bill.

GOEL GARMENTS			
Bill No. 0786			Date 31.01.2019
Particulars	Rate	Quantity	Amount
Trousers	₹110	2	₹220
Caps	₹75	4	₹300
Vests	₹82	3	₹246
Total			₹766

B. Each of the following bills has some errors. Check and prepare a correct bill.

1. Bill No. 0008 **Sun Shine Textile**  
Date 25.02.2019 Old Washermenpet, Chennai-21

Item	Rate (₹ per unit)	Quantity	Amount (in ₹)
Richwood Jeans	495.00	2	890.00
Shirts	325.00	4	1,300.00
Shorts	45.00	7	285.00
<b>Total</b>			2,375.00

Ans. Richwood Jeans = ₹990; Shirts = ₹1300; Shorts = ₹315; Total = ₹2605

2. **CASH MEMO**

Bill No. 123 **Redif Stationery**  
Date 14.03.2019 Salaiyappan Street, Bengaluru-60

Item	Rate (in ₹ per pc)	Quantity	Amount (in ₹)
Notebooks	23.50	24	564.00
Pens	12.25	35	420.75
Pencils	2.00	70	140.00
Geometry box	45.50	6	270.00
<b>Total</b>			1,394.75

Ans. Notebooks = ₹564.00; Pens = ₹428.75; Pencils = ₹140.00; Geometry box ₹273.00, Total = ₹1405.75

3. **BILL**

**Gupta Store** Receipt No. 195/14  
Station Road, Sonapat Date: 20.02.2019

Particulars	Quantity	Rate	Amount
Moong dal	4 kg	₹80/kg	₹320
Arhar dal	3 kg	₹84/kg	₹242
Urad dal	5 kg	₹65/kg	₹325
Basmati rice	40 kg	₹60/kg	₹2,400
India gate rice	25 kg	₹56/kg	₹1,400
Flour	30 kg	₹24/kg	₹720
Vegetable oil	15 kg	₹95/kg	₹1,525
<b>Total</b>			₹4,842

**Ans.** Moong dal = ₹320; Arhar dal = ₹252; Urad dal = ₹325; Basmati rice = ₹2400;  
India Gate rice = ₹1400; Flour = ₹720; Vegetable oil = ₹1425; Total = ₹6842

**C. Solve the following sums.**

1. Shubham purchased 4 kg guavas at ₹40 per kg, 3 kg apples at ₹120 per kg and 5 kg oranges at ₹60 per kg. Prepare the bill. If Shubham gave two 500-rupee notes at the counter, how much balance did he get back?

**Ans.**

BILL			
Particulars	Quantity	Rate	Amount
Guava	4 kg	₹40/kg	₹160
Apple	3 kg	₹120/kg	₹360
Orange	5 kg	₹60/kg	₹300
<b>Total</b>			₹820

, ₹180

2. Anuradha bought 3 packets of biscuits at ₹12.50 per packet, 8 packets of namkins at ₹15 per packet, 9 packets of candies at ₹36.50 per packet and 6 packets of chips at ₹20 per packet. Prepare a bill for this purchase. How much did she pay at the counter?

**Ans.**

BILL			
Particulars	Quantity	Rate/packet	Amount
Biscuit	3 packets	₹12.50	₹37.50
Namkin	8 packets	₹15.00	₹120.00
Candies	9 packets	₹36.50	₹328.50
Chips	6 packets	₹20	₹120.00
<b>Total</b>			₹606.00

3. Make a bill for each of the following.
- (a) 6 soap bars at ₹25 per piece, 8 detergent bars at ₹16 per piece, 4 kg detergent powder at ₹48 per kg and 2 bottles of indigo at ₹35 per bottle.
- (b) 5 storybooks at ₹48 each, 12 notebooks at ₹18 each, 6 pens at ₹7.50 each, a geometry box for ₹85 and a set of water colours for ₹110.

Ans. 3(a)

BILL			
Particulars	Quantity	Rate (₹/unit)	Amount
Soap Bar	6	₹25	₹150
Detergent Bar	8	₹16	₹128
Detergent Powder	4	₹48	₹192
Indigo Bottle	2	₹35	₹ 70
Total			₹540

Ans. 3(b)

BILL			
Particulars	Quantity	Rate (₹/unit)	Amount
Storybook	5	₹48	₹240
Notebook	12	₹18	₹216
Pen	6	₹7.50	₹ 45
Geometry Box	1	₹85	₹ 85
Water Colours Set	1	₹110	₹110
Total			₹696

### FUN ZONE

#### PRICE LIST

- A. How much money does Riya need to buy a polished silver top shell, 2 beautiful yellow shells and 4 purple clam shells?

orange cone shell	₹9.50
purple clam shell	₹2.50
beautiful yellow shell	₹6.50
oyster shell	₹9.50
polished silver top shell	₹6.00

$$\text{Ans. } ₹6.00 + 2 \times 6.50 + 4 \times 2.50 = ₹29.00$$

- B. Rehana has ₹7,250. How much money will Rehana have left if she buys 5 dozen souvenir cups, 8 sand castle magnets, 9 dozen pink flamingo pens and a palm tree magnet?

pink flamingo pen	₹ 325/dozen
souvenir cup	₹ 190/dozen
souvenir spoon	₹ 575/dozen
palm tree magnet	₹ 83/piece
sand castle magnet	₹ 78/piece

**Ans.** Total cost =  $5 \times ₹190 + 8 \times ₹78 + 9 \times ₹325 + ₹83 = ₹4582$   
 $₹7250 - ₹4582 = ₹2668$

## 4. Simple Interest

### ANSWERS

#### EXERCISE 4.1

**A. Compute the simple interest and the amount for each of the following.**

1.  $P = ₹600, R = 6\%, T = 5$  years

2.  $P = ₹1,000, R = 8\%, T = 4$  years

3.  $P = ₹4,500, R = 12\frac{1}{2}\%, T = 3$  years

4.  $P = ₹12,000, R = 6\frac{1}{4}\%, T = 6$  years

5.  $P = ₹25,000, R = 9\%, T = 2\frac{1}{2}$  years

6.  $P = ₹48,000, R = 11\%, T = 4\frac{3}{4}$  years

**Ans.** 1. S.I. = ₹180, A = ₹780

2. S.I. = ₹320, A = ₹1,320

3. S.I. = ₹1,687.50, A = ₹6,187.50

4. S.I. = ₹4,500, A = ₹16,500

5. S.I. = ₹5,625, A = ₹30,625

6. S.I. = ₹25,080, A = ₹73,080

**B. Solve the following word problems.**

1. On a deposit of ₹20,000, Madan received ₹20,800 at the end of 1 year. What interest does he get after 1 year? What interest will he get after 5 years for the same deposit?

**Ans.** ₹800, ₹4,000

2. Mr Prabhakar invested ₹4,000 in a saving scheme for 5 years at the rate of 8% interest per annum. What interest will he get after the given period of time?

**Ans.** ₹1,600

3. Savita borrowed a sum of ₹50,000 at the rate of 12% per annum for 3 years from a private finance company. How much money will she pay after 3 years to the company?

**Ans.** ₹68,000

4. What amount of money will Sukhwinder get after 7 years if he deposits ₹6,000 at  $7\frac{1}{2}\%$  per annum interest rate?

**Ans.** ₹9,150

5. Who gets more interest—Harmanpreet who invests ₹800 for 2 years at  $8\frac{1}{4}\%$  interest rate or Daljeet who invests ₹600 for 3 years at  $7\frac{1}{2}\%$  interest rate?

**Ans.** Harmanpreet gets = ₹132, Daljeet gets = ₹135, Daljeet gets more interest by ₹3

6. Find the simple interest and amount on ₹75,000 for 4 years at the rate of  $6\frac{1}{4}\%$  per annum.

**Ans.** S.I. = ₹18,750, A = ₹93,750

7. T. Rangarajan borrowed ₹6,00,000 at the rate of 8% interest per annum for 3 years. He purchased a plot using this money in a city. After 3 years, he sold the plot to pay the loan he borrowed. After the settlement of a loan, he was left a sum of ₹1,75,000.

(a) Find the interest and the amount he paid to the bank.

(b) At what amount did he sell the plot?

(c) How much profit did he earn from the plot?

**Ans.** (a) Interest = ₹1,44,000, A = ₹7,44,000 (b) ₹9,19,000 (c) ₹3,19,000

### EXERCISE 4.2

**A. Compute the principal for each of the following.**

1. S.I. = ₹300, R = 6%, T = 5 years

2. S.I. = ₹720, R = 8%, T = 3 years

3. S.I. = ₹1,440, R = 9%, T =  $2\frac{2}{3}$  years

4. S.I. = ₹6,000, R =  $12\frac{1}{2}$ %, T = 8 years

**Ans.** 1. ₹1,000

2. ₹3,000

3. ₹6,000

4. ₹6,000

**B. Find the time for each of the following.**

1. P = ₹500, S.I. = ₹120, R = 6%

2. P = ₹1,800, S.I. = ₹360, R = 4%

3. P = ₹6,250, S.I. = ₹625, R = 10%

4. P = ₹40,000, S.I. = ₹2,500, R =  $12\frac{1}{2}$ %

**Ans.** 1. 4 years

2. 5 years

3. 1 year

4.  $\frac{1}{2}$  year

**C. Find the rate of interest for each of the following.**

1. P = ₹900, S.I. = ₹180, T = 2 years

2. P = ₹2,100, S.I. = ₹1,050, T = 4 years

3. P = ₹14,000, A = ₹23,800, T = 15 years

4. P = ₹60,000, A = ₹67,500, T =  $7\frac{1}{2}$  years

**Ans.** 1. 10%

2.  $12\frac{1}{2}$ %

3.  $4\frac{2}{3}$ %

4.  $1\frac{2}{3}$ %

**D. Solve the following word problems.**

1. Shantana invested a sum of money in a bank for 4 years, which gives 9% interest per annum. If she got ₹1,800 as an interest, calculate the principal.

**Ans.** ₹5,000

2. In a savings account, ₹6,200 is deposited for 5 years at a certain rate of interest. If the total amount received is ₹9,300, find the rate of interest.

**Ans.** 10% p.a.

3. In how many years, will a deposit of ₹16,000 earn an interest of ₹2,000 at the rate of 5% simple interest?

Ans.  $2\frac{1}{2}$  years

4. A certain sum is amounted to ₹720 in 2 years at the rate of 10% per annum. Find the sum.

Ans. ₹600

5. In how many years ₹9,000 at the rate of 8% simple interest will be ₹11,060 in a bank?

Ans.  $2\frac{31}{36}$  years

## PUZZLE

### BANKING

Bank	Rates for the time		
	Up to 3 years	4 or 5 years	More than 5 years
Bank A	6%	7%	8%
Bank B	7%	$7\frac{1}{2}\%$	8%
Bank C	$5\frac{1}{2}\%$	8%	9%

1. Mr Prem wants to invest a sum of ₹50,000 for 3 years in a fixed deposit scheme. In which bank will you suggest him to deposit? How much will the bank return in all for the given sum?

Ans. Bank B, ₹60,500

2. Mr Rakesh got an amount of ₹25,600 after 4 years for the deposit of ₹20,000. Can you recognise the bank in which Mr Rakesh had invested?

Ans. Bank A

3. Calculate the interests and arrange them in ascending order.

In Bank A, ₹1,00,000 for 3 years

In Bank B, ₹75,000 for 5 years

In Bank C, ₹40,000 for 8 years

Ans. ₹18,000; ₹28,125; ₹28,800

## PERIODIC TEST 3

### A. Say True or False.

- |                                                          |       |
|----------------------------------------------------------|-------|
| 1. Every prime number is an odd number.                  | False |
| 2. 16:24 and 20:30 are equivalent ratios.                | True  |
| 3. $\frac{2}{5}$ is greater than 20%.                    | True  |
| 4. 100% means 1 whole.                                   | True  |
| 5. 5 bananas for ₹18 is cheaper than 12 bananas for ₹40. | False |

### B. Tick (✓) the correct option.

1.  $1 + \underline{\hspace{2cm}} = 1\frac{2}{3}$   
 (a)  $\frac{1}{3}$      (b) 0     (c)  $\frac{2}{3}$      (d)  $\frac{1}{4}$
2. The unit of a ratio is  
 (a) m     (b) sq. m   
 (c) cu. cm     (d) none of these
3. Which of the following shows a right proportion?  
 (a) 6:2:: 12:3     (b) 9:18:: 18:36   
 (c) 5:15:: 60:12     (d) 4:10:: 12:20
4. A grocer bought the roses at ₹12/dozen and sold 2 roses for ₹3. For each rose, the profit is  
 (a) ₹0.50     (b) ₹1.00     (c) ₹1.50     (d) ₹0.05
5. On a sum of ₹100 at 8% per annum, the interest for 4 years will be  
 (a) ₹4     (b) ₹8     (c) ₹12     (d) ₹32

### C. Match the following.

- |                           |          |
|---------------------------|----------|
| 1. 2 kg oil at ₹85/kg     | (a) ₹60  |
| 2. 3.5 kg rice at ₹42/kg  | (b) ₹130 |
| 3. 1.5 kg sugar at ₹40/kg | (c) ₹170 |
| 4. 5 kg flour at ₹26/kg   | (d) ₹147 |
-

**D. Fill in the blanks.**

1.  $XXX \div V = \underline{\text{VI}}$ .

2.  $1:3:: \underline{9}:27$ .

3.  $\underline{\text{Loss\%}} = \frac{(\text{C.P.} - \text{S.P.}) \times 100}{\text{C.P.}}$ .

4.  $\underline{\text{Amount}} = \text{principal} + \text{simple interest}$ .

E. Divide 18 hours 45 minutes 30 seconds by 5.

**Ans.** 3 hours 45 minutes 6 seconds

F. Find the S.P., if, C.P. = ₹5,420 and Profit = ₹460.

**Ans.** ₹ 5,880

G. The sum of maximum temperatures for five days is 205°C. Find the average temperature.

**Ans.** 41° C

H. Shridhi ate  $\frac{3}{4}$  of a pizza and shrey ate  $\frac{3}{16}$  of the same pizza. How much of the pizza is left?

**Ans.**  $\frac{1}{16}$

I. Find the volume of a block whose each edge is 8 cm.

**Ans.** 512 cu. cm

J. In how many years, on ₹800 at the rate of 6% per annum, the interest will be ₹240?

**Ans.** 5 years

# 5. Metric Measures

## ANSWERS

### LET US RECALL

A. Tick the correct unit in each of the following statements.

1. Length of your finger is about 6.5 mm/cm✓/m/km.
2. Diameter of a 1-rupee coin is about 20 mm✓/cm/m/km.
3. Height of a building is about 12 mm/cm/m✓/km.
4. Your weight is about 35 g/kg✓.
5. Weight of a bangle is about 12 g✓/kg.
6. A glass can contain about 250 mL✓/L water.

B. Put the decimal point at right place to make the measure correct.

1. Length of a pencil 135 cm
2. Distance between school and home 2,550 km
3. Weight of a watermelon 4,255 kg
4. Capacity of a teaspoon 5 L
5. Height of a 10-year old boy 135 m

Ans. 1. 13.5 cm 2. 2.550 km 3. 4.255 kg 4. 0.005 L 5. 1.35 m

### EXERCISE 5.1

A. Fill in the blanks by converting the given measures into the corresponding units.

1. 4 dam : 0.04 km = 0.4 hm = 40 m = 400 dm = 4000 cm = 40000 mm
2. 58 dg : 0.0058 kg = 0.058 hg = 0.58 dag = 5.8 g = 580 cg = 5800 mg
3. 248 mL : 0.000248 kL = 0.00248 hL = 0.0248 daL = 0.248 L = 2.48 dL = 24.8 cL
4. 3.17 kg : 31.7 hg = 317 dag = 3170 g = 31700 dg = 317000 cg = 3170000 mg
5. 0.025 m : 0.000025 km = 0.00025 hm = 0.0025 dam = 0.25 dm = 2.5 cm = 25 mm
6. 0.832 hL : 0.0832 kL = 8.32 daL = 83.2 L = 832 dL = 8320 cL = 83200 mL
7. 7,513 cm : 0.07513 km = 0.7513 hm = 7.513 dam = 75.13 m = 751.3 dm = 75130 mm

B. Express the following into the unit indicated against each.

1. 8 kg 5 hg 9 dag 7 g (in g)
2. 4 g 7 dg 8 cg 2 mg (in mg)
3. 17 km 8 hm 2 dam 4 m (in km)
4. 95 dm 1 cm 6 mm (in m)
5. 3 kL 8 daL 4 L 5 dL (in dL)
6. 5 hL 9 daL 1 L 5 cL (in kL)
7. 4 hm 7 m 8 cm (in km)
8. 6 dag 5 dg 3 cg 9 mg (in g)

Ans. 1. 8597 g 2. 4782 mg 3. 17.824 km 4. 9.516 m  
5. 30845 dL 6. 0.59105 kL 7. 0.40708 km 8. 60.539 g

C. Arrange the following measures in ascending order.

1. 0.25 kg, 5 hg, 126 g, 70 dag
2. 0.3 daL, 57 dL, 2 L, 86 mL

3. 0.01 hm, 0.023 dam, 92 cm, 185 mm      4. 0.3 km, 1 hm, 87 dm, 61 mm  
**Ans.** 1. 126 g, 0.25 kg, 5 hg, 70 dag      2. 86 mL, 2 L, 0.3 daL, 57 dL  
 3. 185 mm, 0.023 dam, 92 cm, 0.01 hm      4. 61 mm, 87 dm, 1 hm, 0.3 km

### EXERCISE 5.2

#### A. Add the following using place-value chart.

1. 7 kL 8 hL 2 daL 9 L 6 dL, 3 kL 7 hL 4 L 8 dL and 3 hL 7 daL 2 L 6 dL

**Ans.** 11 kL 9 hL 7 L

2. 4 g 2 dg 8 cg 4 mg, 9 g 6 dg 5 cg 3 mg and 8 g 5 dg 2 cg 6 mg

**Ans.** 2 dag 2 g 4 dg 6 cg 3 mg

3. 2 kg 7 hg 5 dag 4 g 8 dg, 8 kg 3 dag 2 dg and 9 hg 7 dag 5 g 4 dg

**Ans.** 11 kg 7 hg 6 dag 4 dg

4. 9 dam 8 m 7 dm 4 cm 5 mm, 2 m 3 dm 8 cm 4 mm and 3 dam 8 m 7 mm

**Ans.** 1 hm 3 dam 9 m 1 dm 3 cm 6 mm

#### B. Add the following.

$$\begin{array}{r} 1. \quad 42.357 \text{ km} \\ \quad 9.283 \text{ km} \\ + 35.730 \text{ km} \\ \hline \end{array}$$

**87.370 km**

$$\begin{array}{r} 2. \quad 3564.8 \text{ g} \\ \quad 1301.9 \text{ g} \\ + 652.7 \text{ g} \\ \hline \end{array}$$

**5519.4 g**

$$\begin{array}{r} 3. \quad 428.53 \text{ L} \\ \quad 692.47 \text{ L} \\ + 834.75 \text{ L} \\ \hline \end{array}$$

**1955.75 L**

#### C. Subtract the following using place-value chart.

1. 8 m 7 dm 4 cm 5 mm from 9 m 4 dm 8 cm 2 mm

**Ans.** 7 dm 3 cm 7 mm

2. 4 kg 6 hg 9 dag 4 g 5 dg from 6 kg 3 hg 4 g 2 dg

**Ans.** 1 kg 6 hg 9 g 7 dg

3. 6 hL 3 daL 9 L 5 dL 8 cL from 9 hL 2 daL 8 L 4 dL 3 cL

**Ans.** 2 hL 8 daL 8 L 8 dL 5 cL

4. 6 km 8 m 7 dm 3 mm from 8 km 3 hm 2 dam 4 m 5 dm 1 cm 4 mm

**Ans.** 2 km 3 hm 1 dam 5 m 8 dm 1 cm 1 mm

#### D. Subtract.

$$\begin{array}{r} 1. \quad 423.456 \text{ g} \\ - 157.389 \text{ g} \\ \hline \end{array}$$

**266.067 g**

$$\begin{array}{r} 2. \quad 52.743 \text{ kL} \\ - 9.258 \text{ kL} \\ \hline \end{array}$$

**43.485 kL**

$$\begin{array}{r} 3. \quad 823.546 \text{ m} \\ - 79.830 \text{ m} \\ \hline \end{array}$$

**743.716 m**

- E. A tank had 1 kL water. From this tank, 3 drums of capacities 150 L, 200 L and 225 L were filled. How much water was left in the tank?

**Ans.** 425 L

- F. Raghav, Meetu and Raj, having respective weights 34 kg 5 hg, 32 kg 4 hg and 36 kg 5 hg 6 dag, went for a ride in the amusement park. There was a restriction that it can carry only two people not exceeding 70 kg together. Decide which two cannot go on

that ride together?

**Ans.** Raghav and Raj

### **EXERCISE 5.3**

#### **A. Multiply each of the following using place-value chart.**

1. 3 m 5 dm 4 cm 8 mm by 2
2. 4 g 7 dg 2 cg 9 mg by 3
3. 4 L 2 cL 6 mL by 6
4. 9 hm 7 dam 4 m by 8
5. 3 dag 4 g 5 cg 3 mg by 9
6. 2 hL 3 daL 8 L 4 dL by 7

**Ans.** 1. 7 m 9 cm 6 mm  
2. 1 dag 4 g 1 dg 8 cg 7 mg  
3. 2 daL 4 L 1 dL 5 cL 6 mL  
4. 7 km 7 hm 9 dam 2 m  
5. 3 hg 6 g 4 dg 7 cg 7 mg  
6. 1 kL 6 hL 6 daL 8 L 8 dL

#### **B. Express the following in the units indicated in brackets and multiply.**

1. 2 kg 5 hg 7 dag 4 g by 11 (in kg)
2. 5 hL 8 daL 7 L 2 dL by 15 (in kL)
3. 4 km 7 hm 8 m by 24 (in km)
4. 4 m 7 dm 8 cm 3 mm by 28 (in m)
5. 6 daL 8 L 3 cL by 42 (in L)
6. 3 g 5 dg 3 mg by 34 (in g)

**Ans.** 1. 28.314 kg  
2. 8.808 kL  
3. 112.992 km  
4. 133.924 m  
5. 2857.26 L  
6. 119.102 g

#### **C. Divide each of the following using place-value chart.**

1. 5 m 3 dm 8 cm 4 mm by 4
2. 8 L 8 dL 4 cL 4 mL by 6
3. 9 kg 7 hg 3 dag 7 g by 7
4. 7 km 3 dam 2 m by 8
5. 6 kL 8 hL 5 L by 5
6. 6 dag 4 g 7 dg 1 cg by 9

**Ans.** 1. 1 m 3 dm 4 cm 6 mm  
2. 144 dL 7 cL 4 mL  
3. 1 kg 3 hg 9 dag 1 g  
4. 8 hm 7 dam 9 m  
5. 1 kL 3 hL 6 daL 1 L  
6. 7 g 1 dg 9 cg

#### **D. Express the following in the units indicated in brackets and divide.**

1. 45 L 3 dL 7 cL 2 mL by 12 (in L)
2. 34 m 7 dm 8 cm 5 mm by 15 (in m)
3. 19 kg 8 hg 7 dag 5 g by 25 (in kg)
4. 34 km 9 hm 5 dam by 15 (in hm)
5. 23 g 4 dg 8 cg by 20 (in g)
6. 216 kL 8 daL 4 L by 24 (in kL)

**Ans.** 1. 3.781 L  
2. 2.319 m  
3. 0.795 kg  
4. 23.3 hm  
5. 1.174 g  
6. 9.0035 kL

### **VALUE CORNER**

- A.** On the Van Mahotsav Day, Happy planted some trees and fenced them using bamboo sticks. He bought 2 pieces of bamboo each 9 m long and cut them into 1 m 5 dm long pieces. Further, each piece was divided lengthwise into 6 sticks and then used all of them to fence four trees. How many sticks are used for fencing 1 tree?

**Ans.** Total number of sticks =  $2 \times 9 \div 1.5 \times 6 = 72$ , so, 18 sticks are used for fencing each tree.

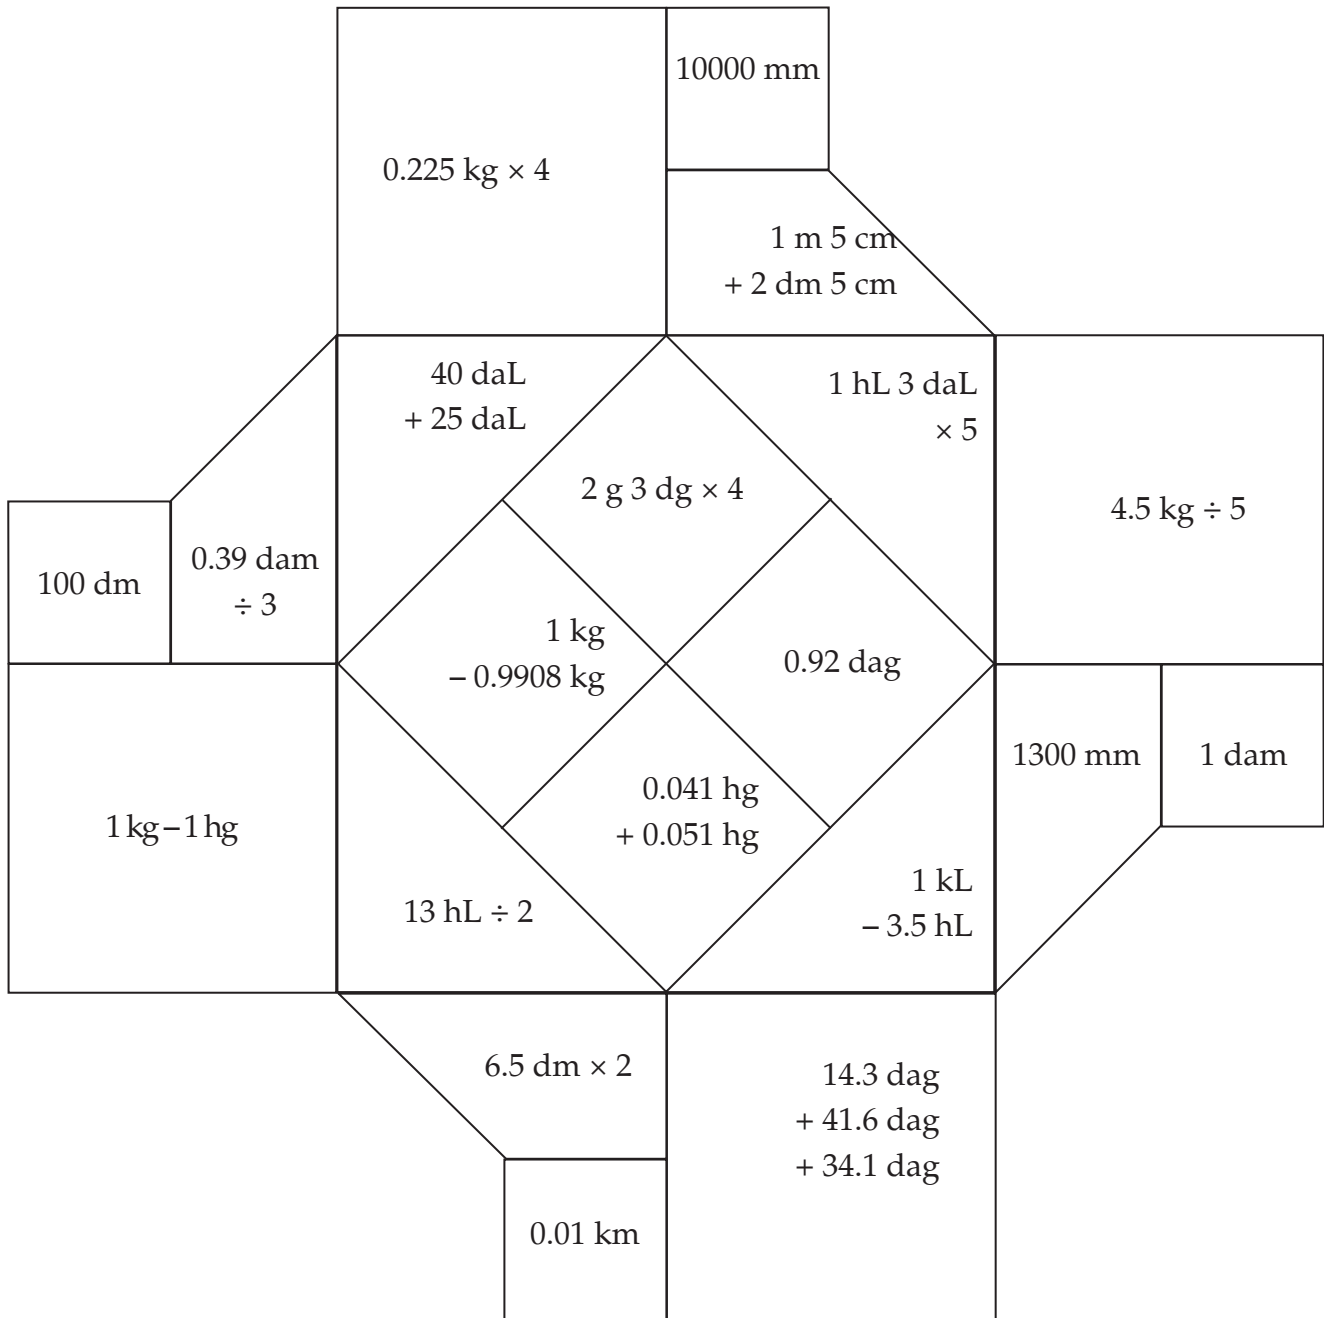

**B.** Collect the amount of water which is leaked from a tap (that has not been closed properly) in a minute or in an hour. Then, calculate the volume of water leaked in a day, a week, a month and a year. Discuss, this result in the class and encourage people to save water.

**Ans.** Do it yourself.

**FUN ZONE**

Simplify the sums given in the design and colour the portions that give equal result with same colour.

**Hint:** Same regions have equal value.

**Ans.** Do it yourself.

# 6. Basic Geometry

## ANSWERS

### LET US RECALL

#### A. Match

- |                 |                                                                                       |                                                                                          |
|-----------------|---------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------|
| 1. Point        | (a)  | (i) It goes on either side endlessly. It cannot be drawn completely on a sheet of paper. |
| 2. Line segment | (b)  | (ii) It has only one end point. It cannot be drawn completely on a sheet of paper.       |
| 3. Ray          | (c)  | (iii) It has two end points and fixed length. It can be drawn on a piece of paper.       |
| 4. Line         | (d)  | (iv) It shows an exact location. It has no length, breadth and height.                   |

Ans. 1. (c) (iv) 2. (a) (iii) 3. (d) (ii) 4. (b) (i)

#### B. Observe the diagram and recognise the points that lie:

- |                                 |                |
|---------------------------------|----------------|
| 1. In the interior of the angle | <u>S, W</u>    |
| 2. In the exterior of the angle | <u>T, V, R</u> |
| 3. On the angle                 | <u>P, Q, U</u> |

### EXERCISE 6.1

#### A. Observe the given diagram and name the following.

- Line segments
- Rays
- Line(s)

Ans. 1.  $\overline{BC}$  and  $\overline{AC}$

2.  $\overline{OC}$ ,  $\overline{OB}$  and  $\overline{OA}$

3.  $\overline{AB}$

**B. Identify the pair of parallel lines and intersecting lines.**

- Ans.** 1. Intersecting      2. Parallel      3. Intersecting  
4. Intersecting      5. Parallel      6. Intersecting

**C. Name the vertices, arms and angles in each of the following.**

- Ans.** 1. Vertex : O, Arms : OP and OQ, Angle:  $\angle QOP$  or  $\angle POQ$   
2. Vertex : S, Arms : SR and ST, Angle:  $\angle RST$  or  $\angle TSR$   
3. Vertices : A and E, Arms : AB, AD; EC, EB, Angle:  $\angle BAD$ ;  $\angle BEC$

**D. How many angles do you observe in the following figures? Write them.**

- Ans.** 1. Three angles;  $\angle QPR$ ,  $\angle RPS$  and  $\angle QPS$   
2. Three angles;  $\angle SOP$  or  $\angle SOQ$ ,  $\angle RPQ$  and  $\angle RPO$   
3. Six angles;  $\angle IXJ$ ,  $\angle JXK$ ,  $\angle KXL$ ,  $\angle IXK$ ,  $\angle JXL$ ,  $\angle IXL$

**E. Fill in the blanks.**

- A point reflects an exact position in space.
- If two lines have a common point, the lines are called intersecting.
- In a plane, the two non-intersecting lines are called parallel.

4. The number of points which determine a plane is three.
5. Each angle has one vertex and two arms.

### EXERCISE 6.2

A. Measure the following angles using a protractor.

1.

2.

3.

4.

5.

6.

Ans. 1.  $40^\circ$

2.  $90^\circ$

3.  $110^\circ$

4.  $40^\circ$

5.  $120^\circ$

6.  $270^\circ$

B. Classify the following angles according to their measures.

1.  $25^\circ$       2.  $105^\circ$       3.  $90^\circ$       4.  $0^\circ$       5.  $180^\circ$   
 6.  $200^\circ$       7.  $360^\circ$       8.  $150^\circ$       9.  $45^\circ$       10.  $300^\circ$

- Ans. 1. Acute angle      2. Obtuse angle      3. Right angle      4. Zero angle  
 5. Straight angle      6. Reflex angle      7. Complete angle or full angle  
 8. Obtuse angle      9. Acute angle      10. Reflex angle

C. Use a protractor to measure each angle and write its type.

1.  $\angle AOB = \underline{70^\circ}$   
 type = acute angle

2.  $\angle BOD = \underline{90^\circ}$   
 type = right angle

3.  $\angle AOC = \underline{120^\circ}$   
 type = obtuse angle

4.  $\angle BOE = \underline{110^\circ}$   
 type = obtuse angle

5.  $\angle COD = \underline{40^\circ}$   
 type = acute angle

6.  $\angle AOE = \underline{180^\circ}$   
 type = straight angle

D. Compute the measure of the angles formed between two hands of the clocks indicating times shown below. Also, classify these angles according to their measures.

1.

2.

3.

Ans.  $60^\circ$ , acute angle

$90^\circ$ , right angle

$120^\circ$ , obtuse angle

4.

5.

6.

Ans. 180°, straight angle

150°, obtuse angle

0°, zero angle

E. Draw any four shapes on the following dot paper. Colour right angle red, acute angle blue and obtuse angle green. One is done for you.

Ans. Draw it yourself.

### EXERCISE 6.3

A. Check whether the given angles make a pair of complementary angles.

- |             |             |             |              |
|-------------|-------------|-------------|--------------|
| 1. 45°, 45° | 2. 10°, 80° | 3. 60°, 30° | 4. 25°, 75°  |
| 5. 90°, 0°  | 6. 85°, 95° | 7. 40°, 50° | 8. 15°, 165° |

Ans. 1. Yes      2. Yes      3. Yes      4. No  
 5. Yes      6. No      7. Yes      8. No

B. Check whether the given angles make a pair of supplementary angles.

- |             |              |              |              |
|-------------|--------------|--------------|--------------|
| 1. 30°, 60° | 2. 80°, 100° | 3. 45°, 135° | 4. 105°, 75° |
| 5. 0°, 180° | 6. 90°, 110° | 7. 80°, 120° | 8. 99°, 81°  |

Ans. 1. No      2. Yes      3. Yes      4. Yes  
 5. Yes      6. No      7. No      8. Yes

C. Find the complement of each of the following angles.

- |               |               |               |               |
|---------------|---------------|---------------|---------------|
| 1. $50^\circ$ | 2. $80^\circ$ | 3. $90^\circ$ | 4. $45^\circ$ |
| 5. $0^\circ$  | 6. 55         | 7. $5^\circ$  | 8. $63^\circ$ |
- Ans. 1.  $40^\circ$       2.  $10^\circ$       3.  $0^\circ$       4.  $45^\circ$   
 5.  $90^\circ$       6.  $35^\circ$       7.  $85^\circ$       8.  $27^\circ$

D. Find the supplement of each of the following angles.

- |                |               |                |                |
|----------------|---------------|----------------|----------------|
| 1. $70^\circ$  | 2. $85^\circ$ | 3. $112^\circ$ | 4. $155^\circ$ |
| 5. $180^\circ$ | 6. $90^\circ$ | 7. $60^\circ$  | 8. $135^\circ$ |
- Ans. 1.  $110^\circ$       2.  $95^\circ$       3.  $68^\circ$       4.  $25^\circ$   
 5.  $0^\circ$       6.  $90^\circ$       7.  $120^\circ$       8.  $45^\circ$

E. Draw the angles of the following measures using a protractor.

- |                |                |               |                |
|----------------|----------------|---------------|----------------|
| 1. $60^\circ$  | 2. $120^\circ$ | 3. $90^\circ$ | 4. $75^\circ$  |
| 5. $115^\circ$ | 6. $150^\circ$ | 7. $68^\circ$ | 8. $144^\circ$ |

Ans. Draw it yourself.

- F. 1. Draw a line AB. Take a point C on the line AB. Draw another line CD making an angle of  $90^\circ$  with AB. Are the lines AB and CD perpendicular to each other?

Ans. Yes,

2. Draw a line segment PQ of length 6 cm. Draw two lines LM and XY perpendicular to PQ and passing through the points P and Q respectively. Are the lines LM and XY parallel or intersecting?

Ans. Parallel,

G. State whether the following statements are True or False.

- The sum of complementary angles is  $180^\circ$ .
- The sum of supplementary angles is  $90^\circ$ .
- The supplement of an acute angle is an obtuse angle.

False

False

True

4. An angle which is equal to its complementary angle is  $45^\circ$ .
5. Two parallel lines are perpendicular to each other.
6. Two intersecting lines may or may not be perpendicular lines.
7. A straight angle is a supplementary angle.
8. A zero angle and a right angle are complementary to each other.

- |       |
|-------|
| True  |
| False |
| True  |
| False |
| True  |

**FUN ZONE**

**ANGLE BETWEEN DIRECTIONS**

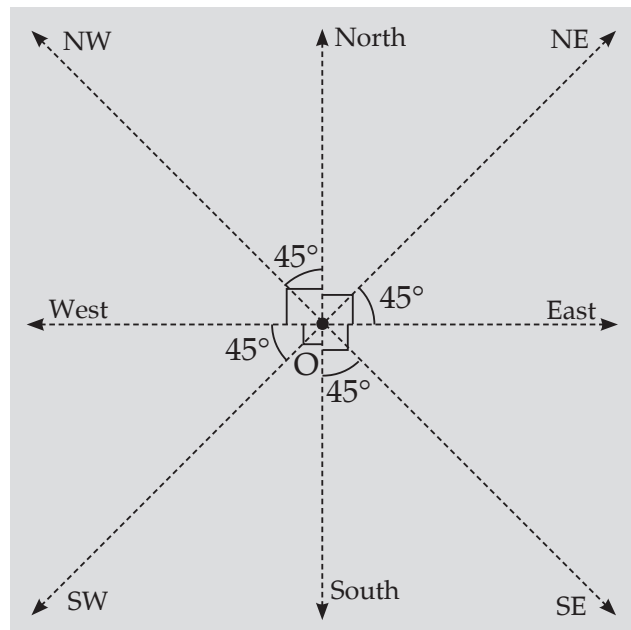

Take a square piece of paper. Fold it into halves vertically, horizontally and diagonally. Then mark the creases so formed and write the name of directions as shown below.

**A. Find the measure of angle between**

1. East and North  
**Ans.**  $90^\circ$
2. East and West  
**Ans.**  $180^\circ$
3. West and South-West  
**Ans.**  $45^\circ$
4. North and South-East  
**Ans.**  $135^\circ$

**B. Name the direction(s) which is/are**

1. Perpendicular to South  
**Ans.** East and West
2. Opposite to North-West  
**Ans.** South-East
3. At an angle of  $45^\circ$  with North-East  
**Ans.** East and North
4. At an angle of  $135^\circ$  with East  
**Ans.** North-West and South-West

# 7. Polygons and Circles

## ANSWERS

### EXERCISE 7.1

A. Draw a rough sketch of each of the following.

1. A polygon with three sides
2. A polygon with five sides
3. A polygon with four angles
4. A polygon with six equal sides
5. A regular polygon with six sides

Ans. Do it yourself.

B. Name each of the following triangles in two different ways based on the sides and angles.

1.

2.

3.

4.

5.

6.

- Ans. 1. Equilateral triangle, Acute-angled triangle    2. Isosceles triangle, Right-angled triangle  
 3. Scalene triangle, Obtuse-angled triangle    4. Right-angled triangle, Scalene triangle  
 5. Isosceles triangle, Acute-angled triangle    6. Isosceles triangle, Obtuse-angled triangle

C. Classify the triangles that have following measures.

1. On the basis of sides

- |                         |                       |                         |
|-------------------------|-----------------------|-------------------------|
| (a) 3 cm, 4 cm, 5 cm    | (b) 8 cm, 8 cm, 10 cm | (c) 15 cm, 15 cm, 15 cm |
| (d) 40 cm, 45 cm, 45 cm | (e) 4 m, 3.5 m, 4.5 m | (f) 6 cm, 10 cm, 12 cm  |

- Ans. (a) Scalene triangle    (b) Isosceles triangle    (c) Equilateral triangle  
 (d) Isosceles triangle    (e) Scalene triangle    (f) Scalene triangle

2. On the basis of angles

- |                   |                   |                    |
|-------------------|-------------------|--------------------|
| (a) 40°, 50°, 90° | (b) 60°, 60°, 60° | (c) 110°, 35°, 35° |
|-------------------|-------------------|--------------------|

(d)  $45^\circ, 90^\circ, 45^\circ$

(e)  $78^\circ, 22^\circ, 80^\circ$

(f)  $91^\circ, 19^\circ, 70^\circ$

Ans. (a) Right-angled triangle (b) Acute-angled triangle (c) Obtuse-angled triangle  
(d) Right-angled triangle (e) Acute-angled triangle (f) Obtuse-angled triangle

**D. Recognise regular polygons in the following shapes.**

Ans. 1 and 4 are regular polygons.

E. 1. Draw a rough sketch of each of the six types of triangles.

2. Can a right-angled triangle be an equilateral triangle?

Ans. 1. Do it yourself. 2. No

**EXERCISE 7.2**

**A. Can a triangle have following measures of angles?**

1.  $23^\circ, 67^\circ, 90^\circ$

2.  $90^\circ, 90^\circ, 0^\circ$

3.  $110^\circ, 60^\circ, 10^\circ$

4.  $75^\circ, 85^\circ, 95^\circ$

5.  $105^\circ, 110^\circ, 25^\circ$

6.  $40^\circ, 50^\circ, 60^\circ$

Ans. 1. Yes

2. No

3. Yes

4. No

5. No

6. No

**B. Find the missing angle of each of the following.**

Ans. 1.  $80^\circ$

2.  $110^\circ$

3.  $45^\circ$

4.  $40^\circ$

**C. Can it be possible to form a triangle with the given measures of sides?**

1. 4 cm, 5 cm, 8 cm

2. 3 cm, 5 cm, 10 cm

3. 8 cm, 4.5 cm, 3.5 cm

4. 18 cm, 18 cm, 18 cm

5. 6 cm, 6 cm, 15 cm

6. 12 cm, 15 cm, 9 cm

Ans. 1. Yes

2. No

3. No

4. Yes

5. No

6. Yes

**D. Solve the following word problems.**

1. The measures of two angles of a triangle are  $30^\circ$  and  $60^\circ$ . Find the measure of third angle. What kind of a triangle is it?

Ans.  $90^\circ$ , Right-angled triangle

2. The measures of two angles of a triangle are  $25^\circ$  and  $50^\circ$ . Find the measure of third angle and classify the triangle on the basis of sides as well as angles.

**Ans.**  $105^\circ$ , Obtuse-angled triangle; scalene triangle

3. A triangle has all the angles of equal measure. Find the angles and name the triangle in two different ways.

**Ans.**  $60^\circ, 60^\circ, 60^\circ$ , Acute-angled triangle; Equilateral triangle

4. A right-angled triangle has two angles of equal measure. Find the angles and give other name of the triangle.

**Ans.**  $90^\circ, 45^\circ, 45^\circ$ ; Isosceles triangle

5. The perimeter of a triangle is 20 cm. Can the triangle have two sides 2 cm and 10 cm? Justify your answer.

**Ans.** No, in that case third side will be 8 cm, but  $2 \text{ cm} + 8 \text{ cm} = 10 \text{ cm}$  is not possible in a triangle.

### EXERCISE 7.3

- A. Observe the figure and fill in the blanks.

1. ABCD is a quadrilateral.
2. The four sides are AB, BC, CD and AD.
3.  $\angle ABC$ ,  $\angle BCD$ ,  $\angle CDA$  and  $\angle DAC$  are its four angles.
4. AC and BD are two diagonals whose intersecting point is O.
5. AB and AD are the adjacent sides.
6. A and C are the opposite vertices.

- B. Classify the following quadrilaterals on the basis of given sides and angles.

1.

2.

3.

4.

5.

6.

**Ans.** 1. Rhombus

2. Kite

3. Trapezium

4. Rectangle

5. Square

6. Parallelogram

C. How many rectangles and squares are present in the following figure? Write them.

1. Rectangles: 6; AEIH, ABFH, AEGD, CDHF, BCGE, CGIF

2. Squares: 3; DGIH, BFIE, ABCD

D. Draw the rough sketch of each of the following.

1. Square

2. Rectangle

3. Parallelogram

4. Trapezium

5. Rhombus

6. Kite

Ans. Do it yourself.

E. Fill in the blanks.

1. A polygon with the least number of sides is called triangle.

2. A quadrilateral is a 4-sided polygon.

3. A parallelogram has both pairs of opposite sides parallel.

4. Rhombus is a special type of parallelogram whose all sides are equal but angles not  $90^\circ$ .

5. A rectangle is said to be a square when its adjacent sides are equal.

6. A quadrilateral with only one pair of parallel sides is called trapezium.

7. A quadrilateral having only two pairs of consecutive sides equal and opposite sides unequal is called a kite.

8. The line segments joining the opposite vertices in a quadrilateral are called its diagonals.

#### EXERCISE 7.4

A. Observe the figure given alongside and identify the following.

1. P Centre

2. PN Radius

3. LM Diameter

4.  $\widehat{MQN}$  Minor arc

5.  $\widehat{MLN}$  Major arc

6. PMQNP Sector

B. Draw a rough sketch of a circle. On it, mark and name the following.

1. a chord

2. minor segment

3. a diameter

4. semicircle

5. a sector

Ans. Do it yourself.

C. Write (T) for True and (F) for False.

1. Only one diameter can be drawn in a circle.

F

2. A number of radii can be drawn in a circle.

T

3. The longest chord of a circle is its diameter.
4. Every chord divides a circle into two semicircles.
5. The region bounded by two radii and an arc is called the segment of the circle.
6. If the diameter of a circle is 15 cm, its radius will be 7.5 cm.
7. Concentric circles have common radius.

T  
F  
F  
T  
F

**D. In the circle given alongside shade its interior region. Now, recognise the points which lie:**

1. in its interior.
2. on the circumference.
3. on its exterior.

**Ans.** 1. D, H, I, O                      2. B, F, J                      3. A, C, E, G

**EXERCISE 7.5**

**A. Draw a circle for each of the following radii.**

1. 3 cm                      2. 5 cm                      3. 4.5 cm                      4. 6.2 cm

**Ans.** Do it yourself.

**B. Do as directed:**

1. Draw a circle of diameter 8 cm.
2. Using a pair of compasses, draw a circle of radius 4.8 cm with centre O. Draw a diameter AOB and measure it.
3. Draw a line segment AB of length 6 cm. With the centre A, draw a circle of radius 4 cm and with centre B, draw another circle of radius 2 cm. Do the circles touch each other?
4. With the same centre P, draw three circles of radii 2 cm, 2.5 cm and 3 cm. Find the measure of their diameters.

**Ans.** Do it yourself.

**C. Find the circumference of the circles having:**

1. diameter = 8 cm                      2. diameter = 14 cm                      3. diameter = 12.4 cm
4. radius = 6 cm                      5. radius = 11 cm                      6. radius = 6.5 cm

**Ans.** 1. 24 cm (approx.)                      2. 42 cm (approx.)                      3. 37.2 cm (approx.)  
4. 36 cm (approx.)                      5. 66 cm (approx.)                      6. 39 cm (approx.)

**D. Find the approximate radius of the circle whose circumferences are:**

1. 78 cm                      2. 312 cm                      3. 480 cm                      4. 750 cm

**Ans.** 1. 13 cm                      2. 52 cm                      3. 80 cm                      4. 125 cm

**E. Construct a circle having approximate circumference 18 cm by finding its radius.**

**Ans.** Do it yourself.

**F. The Parliament House in New Delhi is a circular building with a radius approximately 85.5 m.**

1. What is the diameter of the building?
2. What is the approximate circumference of the building?

**Ans. 1. 171 m**

**2. 513 m**

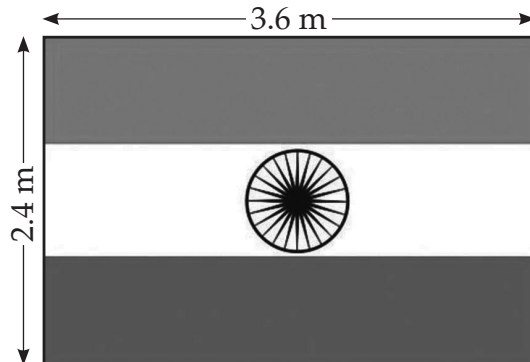

**PUZZLE**

**A. Find the approximate circumference of the circular design made on a square handkerchief shown below.**

**Ans. 96 cm**

**B. Find the diameter of Ashok Chakra made on the Indian National Flag of sizes 3.6 m × 2.4 m. Then, find its approximate circumference and the length of each spike.**

**Ans. 80 cm, 240 cm, 40 cm**

# 8. Symmetry, Patterns and Nets

## ANSWERS

### LET US RECALL

A. Ring the symmetrical shapes in the following.

Ans. 1 and 2

B. Draw the line of symmetry for the following figures.

C. Observe and extend the number patterns.

- 1, 2, 4, 8, 16, 32, 64, 128
- 10, 30, 90, 270, 810, 2430, 7290
- 965, 865, 765, 665, 565, 465, 365

### MENTAL TEST

A boy takes a comb in his left hand and stands in front of a mirror.

In which hand does he find the comb after the reflection of himself?

Ans. Right hand

### EXERCISE 8.1

A. Write the letters of English alphabet which has:

- one line of symmetry  
A, B, C, D, E, K, M, T, U, V, W, Y
- two lines of symmetry  
H, I, O, X
- no line of symmetry  
F, G, J, L, N, P, Q, R, S, Z

B. Do any numbers from 0 to 9 have line(s) of symmetry? Write them.

Ans. Yes; 0, 3, 8

C. Write the name of some symmetrical objects from your surroundings.

Ans. Do it yourself.

D. Draw the line(s) of symmetry of the following solids.

E. Which of the following figures are the reflection along the mirror line M?

Ans. 2 and 3

F. Draw the reflection of the shapes given below along the mirrors L and M.

Ans. Do it yourself.

G. Use the bold line as a mirror to draw the reflection of the shapes given below.

Ans. Do it yourself.

## EXERCISE 8.2

A. Recognise the shape that can be rotated at a  $\frac{1}{4}$  turn, a  $\frac{1}{3}$  turn, a  $\frac{1}{2}$  turn and a full turn to look like the original. Write the order of symmetry.

Ans. 1. Full turn 2.  $\frac{1}{2}$  turn 3.  $\frac{1}{3}$  turn 4.  $\frac{1}{4}$  turn 5.  $\frac{1}{2}$  turn 6.  $\frac{1}{4}$  turn 7. Full turn 8.  $\frac{1}{3}$  turn

B. Draw how these shapes will look like after the following turns.

Shape	$\frac{1}{4}$ turn	$\frac{1}{2}$ turn	$\frac{3}{4}$ turn	1 full turn

C. Do as directed.

- Do any letters of English alphabet have rotational symmetry? Write the letters with their order of symmetry.
- Which of the digits from 0 to 9 have rotational symmetry?
- What order of rotational symmetry does a circle have?

Ans. 1. H, I, N, O, S, X, Z; all these letters have 2 as order of symmetry 2. 0 and 8 3. 360

D. Find the order of rotational symmetry of a regular hexagon. Draw rough sketches of it.

Ans. Six

**EXERCISE 8.3**

A. 1. Observe the pattern and find the number of matchsticks required to make 9th and 7th patterns respectively.

Ans. 19 matchsticks, 15 matchsticks

2. How many matchsticks will you need to make 6th and 10th patterns respectively?

Ans. 19 matchsticks, 31 matchsticks

B. Find the sum of the following patterns.

1.  $1 + 2 + 3 + 4 + 5 + 6 + 7 + 8 + 9 + 10$

2.  $11 + 12 + 13 + 14 + 15 + 16 + 17 + 18 + 19 + 20$

3.  $35 + 36 + 37 + 38 + 39 + 40 + 41 + 42 + 43 + 44$

4.  $5 + 10 + 15 + 20 + 25 + 30 + 35 + 40 + 45 + 50$

[Hint: Use the concept of triangular numbers for adding given natural numbers.]

Ans. 1. 55                      2. 155                      3. 395                      4. 275

C. 1. Compute the 11th, 15th and 31st triangular numbers.  
 2. Find the 12th, 16th and 30th square numbers and split them into two triangular numbers.  
 3. 6 is a number which can be expressed as a line segment, triangle and a rectangle.

Find the next two numbers that can be shown in the above shapes.

Ans. 1. 66, 120, 496    2.  $144 = 66 + 78$ ,  $256 = 120 + 136$ ,  $900 = 435 + 465$     3. 10 and 15

D. Can you show any natural number in all the four shapes—line segment, triangle, rectangle and square? Justify your answer.

Ans. Yes, 36 can be shown through all the four given shapes.

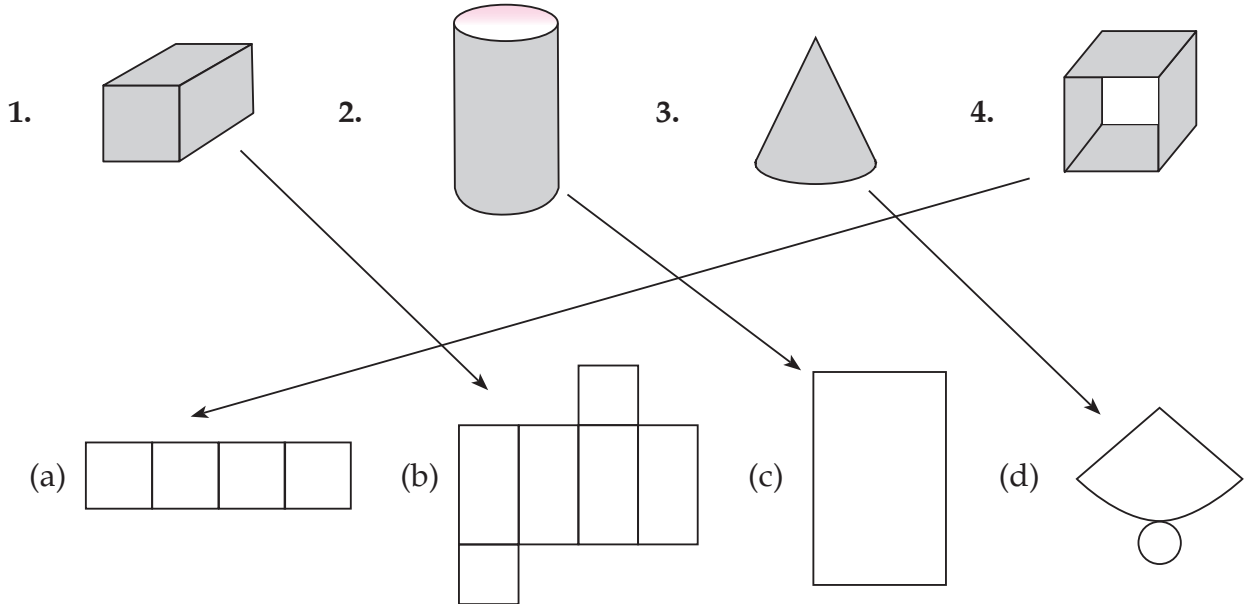

**EXERCISE 8.4**

A. Which of these nets can be folded to make open cube with five faces.

Ans. 1, 3 and 5 can be folded in an open cube with five faces.

B. Match the shapes with their nets.

C. Complete the sketches of solids on the square dot paper and isometric dot paper.

1.

2.

Ans. Do it yourself.

# 9. Data Handling

## ANSWERS

### LET US RECALL

A collection of facts and figures regarding a definite objective is called **data**. The data collected from individuals or a group of people is called **raw data**.

Pragya, the class monitor, was collecting money from her classmates for celebrating teacher's day. She was also noting down the amounts in order of the roll numbers as shown below:

1. ₹20    2. ₹25    3. ₹22    4. ₹21    5. ₹22    6. ₹25    7. ₹24    8. ₹23    9. ₹24  
 10. ₹25    11. ₹24    12. ₹20    13. ₹21    14. ₹22    15. ₹23    16. ₹24    17. ₹23    18. ₹22  
 19. ₹21    20. ₹20    21. ₹22    22. ₹23    23. ₹25    24. ₹21    25. ₹20    26. ₹25    27. ₹24  
 28. ₹25    29. ₹24    30. ₹23    31. ₹25    32. ₹25    33. ₹25    34. ₹20    35. ₹20    36. ₹22

Enter the data under the following table using the tally marks:

Amount	Tally marks	No. of students	Total collection
₹20		6	₹120
₹21		4	₹84
₹22		6	₹132
₹23		5	₹115
₹24		6	₹144
₹25		9	₹225
Total		36	₹820

How much more amount does she need to get a total of ₹1,000? ₹180

### EXERCISE 9.1

- A. 1. The number of students enrolled in primary wings is given below. Make a pictograph choosing an appropriate symbol and give a title.

Class	I	II	III	IV	V
No. of students enrolled	35	20	25	15	10

Ans.

Class	Each ☺ stands for 5 students
I	☺☺☺☺☺☺☺
II	☺☺☺☺
III	☺☺☺☺☺
IV	☺☺☺
V	☺☺

2. The number of milk packets sold by a dairy on different days of a week is shown below.

Days	Mon	Tue	Wed	Thu	Fri	Sat	Sun
No. of milk packets sold	250	300	200	150	100	200	350

Choose a suitable symbol and make a pictograph.

**Ans.**

Days	Each ☒ stands for 50 packets
Mon	☒ ☒ ☒ ☒ ☒
Tue	☒ ☒ ☒ ☒ ☒ ☒
Wed	☒ ☒ ☒ ☒
Thu	☒ ☒ ☒
Fri	☒ ☒
Sat	☒ ☒ ☒ ☒
Sun	☒ ☒ ☒ ☒ ☒ ☒ ☒

- B. 1.** The table given below shows the number of different trees on a farm.

Types of trees	Mango	Apple	Orange	Neem	Others
No. of trees	50	30	40	20	35

Draw a bar graph for the above information.

2. The rainfalls recorded for seven days in a city are given below.

Days	Mon	Tue	Wed	Thu	Fri	Sat	Sun
Rainfalls (in mm)	40	35	50	60	20	30	55

Draw a bar graph using the above information and give a title.

**Ans. 1.**

**2.**

- C. 1. The 45 students of Class V were asked their favourite subjects. The data given below shows their choices.

Subject	Maths	English	EVS	Science	GK
No. of students	15	10	8	7	5

Display the above data on a pie chart.

2. Somya visited a zoo last week. She recorded the number of animals as given below:

Type of animals	Tigers	Elephants	Lions	Monkeys	Deer	Others
No. of animals	10	5	8	20	18	11

Draw a pie chart to show the above information.

Ans. 1.

2.

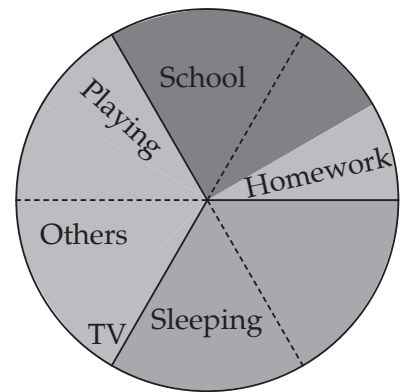

### EXERCISE 9.2

- A. Here is a circle graph that shows how Avni spent her whole day. Circle has been divided into six equal parts. There are 24 hours in a day, so each equal part represents 4 hours.

Can you complete the table given below using the details in the circle graph?

Activity	Time
Homework	2 hours
Playing	
School	
	1 hour
Sleeping	
	5 hours

Ans.

Activity	Homework	Playing	School	TV	Sleeping	Others
Time	2 hours	2 hours	6 hours	1 hour	8 hours	5 hours

- B. The given pictograph shows the number of students (of a class) who have opted for the second languages.

Language	No. of students
Hindi	
Sanskrit	
Tamil	
French	
	Each  stands for 3 students.

Observe the graph and answer the following questions:

1. Which language is opted by the least number of students?

**Ans.** Sanskrit

2. How many students opted for French?

**Ans.** 12 students

3. How many more students opted for Tamil than Hindi?

**Ans.** 9 students

C. The following bar graph depicts the temperatures recorded for seven days in a city:

Study the graph and answer the following questions.

1. What was the hottest day?

**Ans.** Friday

2. When was the temperature less than 35°C?

**Ans.** Wednesday

3. What was the temperature on Sunday?

**Ans.** 36°C

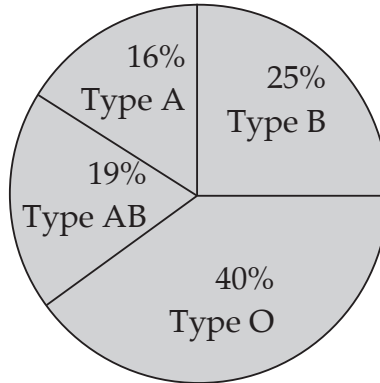

4. On which days the temperature was same?

**Ans.** Thursday and Saturday

5. What is the difference between temperatures on the hottest and the coolest days during the week?

**Ans.**  $43^{\circ}\text{C} - 32^{\circ}\text{C} = 11^{\circ}\text{C}$

**D.** The pie chart given below shows the percentages of blood types for a group of 200 people.

1. How many people have blood type AB in this group?

**Ans.** 38 people

2. How many people do not have blood type O in this group?

**Ans.** 120 people

3. How many people have blood type A or B in this group?

**Ans.** 82 people

### VALUE CORNER

Have you heard how the visually challenged persons read and write? Such persons learn a coded language which was developed by Louis Braille. In this language, numbers and letters are coded using a set of 6 dots (2 dots in each of 3 rows) which vary in arrangement. Here is a chart of letters of English alphabet coded in Braille.

● ○	● ○	● ●	● ●	● ○	● ●	● ●	● ○	○ ●
○ ○	● ○	○ ○	○ ●	○ ●	● ○	● ●	● ●	● ○
○ ○	○ ○	○ ○	○ ○	○ ○	○ ○	○ ○	○ ○	○ ○
<b>A</b>	<b>B</b>	<b>C</b>	<b>D</b>	<b>E</b>	<b>F</b>	<b>G</b>	<b>H</b>	<b>I</b>
○ ●	● ○	● ○	● ●	● ●	● ○	● ●	● ●	● ○
● ●	○ ○	● ○	○ ○	○ ●	○ ●	● ○	● ●	● ●
○ ○	● ○	● ○	● ○	● ○	● ○	● ○	● ○	● ○
<b>J</b>	<b>K</b>	<b>L</b>	<b>M</b>	<b>N</b>	<b>O</b>	<b>P</b>	<b>Q</b>	<b>R</b>
○ ●	○ ●	● ○	● ○	○ ●	● ●	● ●	● ○	
● ○	● ●	○ ○	● ○	● ●	○ ○	○ ●	○ ●	
● ○	● ○	● ●	● ●	○ ●	● ●	● ●	● ●	
<b>S</b>	<b>T</b>	<b>U</b>	<b>V</b>	<b>W</b>	<b>X</b>	<b>Y</b>	<b>Z</b>	

Dots are slightly raised in each array. Observe the given chart and prepare a tally table.

Code having	Tally marks	No. of letters
1 raised dot		1
2 raised dots	≡≡	5
3 raised dots	≡≡	9
4 raised dots	≡≡	9
5 raised dots		2

Make a bar graph using the table you prepared.

- How many letters are coded with 3 raised dots?
- How many raised dots are used in maximum number of letters?
- What is the difference between the letters which have 2 raised dots and 4 raised dots?

**Ans.** Draw bar graph yourself.

- (a) 9 letters (b) either 3 or 4 raised dots (c) 4

## MODEL TEST PAPER

### A. Choose the correct answer.

- The total number of 6-digit numbers is  
(a) 10,000  (b) 6,00,000   
(c) 9,00,000  (d) 9,99,999
- The number which is greater than 99 is  
(a) XCIX  (b) XCIV   
(c) CXVI  (d) XCVI
- The smallest number formed with digits 6, 2, 0, 1, 8 and 3 having 8 at the thousands place is  
(a) 1,02,368  (b) 1,08,236   
(c) 1,02,836  (d) 6,08,321
- The largest length among the four is  
(a) 1 km  (b) 50 dam   
(c) 385 m  (d) 8,000 dm
- The order of rotational symmetry a circle has is  
(a) 1  (b) 2   
(c) 4  (d) 360
- Which of the following is shown through sectors?  
(a) Pictograph  (b) Circle graph   
(c) Bar graph  (d) None of these

### B. State whether the following statements are True or False.

- 9 and 11 are a pair of twin primes.  False
- 0.25, 0.025 and 0.250 are equivalent decimals.  False
- 5% of a metre is 5 cm.  True
- When CP is greater than SP, there is a profit.  False
- The sum of two consecutive triangular numbers is a square number.  True
- The sum of all the three angles of a triangle is  $180^\circ$ .  True

C. Find the perimeter and area of a square with side 60 cm.

Ans. Perimeter = 240 cm, Area = 360 cm<sup>2</sup>

D. Convert 145 days into months, weeks and days.

Ans. 4 months, 3 weeks and 4 days

E. Solve the following:

1.  $4,83,759 \times 28$

2.  $2\frac{1}{2} + 3\frac{1}{3} + \frac{5}{6}$

3.  $4\frac{5}{16} \div 5\frac{3}{4}$

4.  $4.27 + 0.946 + 18.37$

5.  $164.95 \times 0.123$

Ans. 1. 13545252    2.  $\frac{20}{3}$     3.  $\frac{3}{4}$     4. 23.586    5. 20.28885

F. Name the solids which can be formed with following nets.

1.

2.

Ans. 1. Square pyramid

2. Triangular prism

G. Find the value of 25% of a dozen.

Ans. 3

H. 1. Compute the profit or loss per cent when CP = ₹6,400 and SP = ₹6,000.

2. Calculate the simple interest and amount paid after 4 years on a sum of ₹5,000 at 8% simple interest per annum.

Ans. 1.  $L\% = 6\frac{1}{4}\%$     2. S.I. = ₹1600, A = ₹6600

I. 1. Express 4 hours to a day in ratio.

Ans. 1 : 6

2. In a right-angled triangle, the two acute angles are in the ratio 4 : 5. Find the measure of all the three angles.

Ans. 40°, 50°, 90°

J. Find the complementary and supplementary angles of each of the following.

1. 30°

2. 90°

Ans. 1. 60°, 150°

2. 0°, 90°

K. Solve the following word problems.

1. An ice block in the shape of a cuboid has length 2 m, width 1.5 m and height 0.9 m. Find its volume.

Ans. 2.7 cu m

2. Amit's office is 7 km 650 m from his home. How much distance does he travel in 6 days of a week?

Ans. 91 km 800 m

L. 1. Find the order of symmetry for each of the following.

Ans. (a) 2

(b) 4

2. Write next three terms of the following pattern.

3 7 10 17 27 44 71 115 186

M. 1. Compute the number of books in a library.

Language	Each  represents 20 books	No. of books
English		80
Hindi		60
Tamil		100
Telugu		80
French		40

2. Draw a bar graph for the above information.

# 1. India—Mineral Resources

## ANSWERS

### WARM UP

Winners of the Olympic Games are awarded three types of medals. Can you tell what they are made of? Look at the pictures of the medals and write the metal they are made of.

1. Silver
2. Gold
3. Bronze

### CHECKPOINT

Fill in the blanks with information from the text.

1. Metals are derived from ores.
2. The process of taking out minerals from the Earth is called mining.
3. The process of separating minerals from ore is called smelting.
4. Bauxite is the ore of aluminium.

### CHECK YOUR STUDY

A. Tick (✓) the correct answers.

1. It has minerals as a component.

- (a) Air  (b) Water  (c) Rock

2. Metallic minerals include

- (a) iron  (b) coal  (c) CNG

3. Nonmetallic minerals include

- (a) iron  (b) coal  (c) aluminium

4. To make dry cell batteries, we use

- (a) gold  (b) silver  (c) manganese

B. Give an example of each.

1. A utensil made of iron Frying pan
2. A vehicle whose body is made of aluminium Aeroplane
3. An iron ore producing area in India Odisha
4. A coal producing area in India West Bengal
5. An oil refinery centre in India Digboi, Assam

### C. Answer these questions.

1. What is a mineral ore?

**Ans.** A rock which is rich in one mineral is called the ore of that mineral.

2. Minerals are divided into two groups. Name them and give two examples for each of them.

**Ans.** (i) Metallic mineral — (a) iron (b) copper.

(ii) Non-metallic mineral — (a) mica (b) limestone.

3. Name any two main iron ore producing states in India.

**Ans.** Jharkhand and Odisha.

4. Name any two places in India where oil refineries are located.

**Ans.** Barauni, Bihar and Gujarat Refinery, Gujarat.

5. Name any two big iron and steel plants in India.

**Ans.** Tisco & IISCO.

### THINK AND ANSWER

#### D. How can you save energy at your home? List three ways.

**Ans.** (i) Switch off fans when not in use.

(ii) Use solar energy.

(iii) Use CFL.

### LET US DO

#### E. Project

Sometimes, more than one metal is mixed together in a certain amount to make a new metal. The new metal is called an alloy. With the help of the Internet, write the names of two alloys and their uses.

**Ans.** Do it yourself.

#### F. Survey

Write 'R' for the things that can be reused.

    (R)    

    (R)    

    (R)    

## VALUE CORNER

**G. You need to boil some potatoes. What process will you follow? Tick (✓) the energy-saving process.**

(a) Boil in an open pan

(b) Boil in a pressure cooker

## LIFE SKILLS

**H. While buying an electric home appliance, what features will you consider?**

**Ans. Hint:** Consumption of electricity.

## 2. India—Human Resources

### ANSWERS

#### WARM UP

Tick (✓) the right answer. To progress, India needs

1. healthy, unskilled human resources
2. unhealthy, skilled human resources
3. healthy, skilled human resources

#### CHECKPOINT

Tick (✓) the correct statement.

1. Each and every person is considered a human resource in a country.
2. Anyone can run a machine.
3. For progress, every nation must take care of human resources.
4. The population in India is growing at a rapid rate.

#### CHECK YOUR STUDY

A. Tick (✓) the correct answers.

1. Educated and skilled people are considered a  
(a) machine  (b) burden  (c) resource
2. India has \_\_\_\_\_ per cent of the total population of the world.  
(a) 16  (b) 18  (c) 25
3. This is a thickly populated State of India.  
(a) West Bengal  (b) Nagaland  (c) Rajasthan
4. About half of the total population of India is  
(a) rich  (b) poor  (c) very rich
5. The rapid growth of population in India is creating  
(a) problems  (b) prosperity  (c) progress

B. Fill in the blanks with information from the text.

1. About 70 per cent of the our population lives in villages.
2. There are more than 30 cities in India whose population is more than ten lakhs.
3. The population of India is growing at a rapid rate.

### C. Answer these questions.

1. What is the importance of human resources?

**Ans.** Human resource that is healthy and educated can turn other resources useful.

2. Discuss the pattern of population distribution in India.

**Ans.** The population in our country is not evenly distributed. Some areas are very thickly populated and some are sparsely populated. The average density of population (2011 provisional) in our country is about 382 persons per square kilometre. It is very high in comparison to the world's average density, which is only 45 persons per square kilometre.

The thickly populated States are Uttar Pradesh, Bihar, Maharashtra, West Bengal and Andhra Pradesh. About half of the total population of India lives in these States. The sparsely populated regions are the desert in Rajasthan, the hilly areas in the northern and north-eastern States and parts of the Deccan Plateau.

3. Give two reasons for poverty in our country.

**Ans.** Huge population and lack of resources.

4. What problems are created by the rapid growth of population?

**Ans.** The rapid growth of population creates many problems such as shortage of food, water, housing, schools, hospitals and employment. About half of the total population of India is very poor. It does not have enough to eat. It consists of big families whose income is limited.

5. What are the problems of Metro cities in India?

**Ans.** Overpopulation; lack of space.

### THINK AND ANSWER

**D. Do you think education has an important role in making a man a resourceful human being? Discuss the idea of Swami Vivekananda on education in the light of the above question.**

**Education is the manifestation of the perfection already existing in man—Swami Vivekananda.**

**Ans.** Do it yourself.

### LET US DO

**E. Discuss**

How is rapid growth in population affecting India's development?

**Ans.** Do it yourself.

## VALUE CORNER

### **F. Tick (✓) your view.**

The government of a country should control/ignore the growth of population.

**Ans.** Control.

# 3. India—Agriculture

## ANSWERS

### WARM UP

Name this famous scientist. He is called the 'Father of the Green Revolution' in India.

Dr. M.S. Swaminathan

### CHECKPOINT

**Answer these questions.**

1. Which is the most important occupation in India?

**Ans.** Agriculture.

2. Name a Kharif crop grown in India.

**Ans.** Rice.

3. What is the rank of India in the world in producing rice?

**Ans.** India ranks second in rice production.

4. Name a plantation crop.

**Ans.** Tea.

### CHECK YOUR STUDY

**A. Tick (✓) the correct answers.**

1. Wheat is cultivated in

(a) the kharif season  (b) the rabi season  (c) both seasons

2. Gram is included in

(a) millets  (b) pulses  (c) cash crops

3. It is called the 'golden fibre'.

(a) Wool  (b) Cotton  (c) Jute

4. The Blue Revolution is associated with

(a) foodgrains  (b) fishes  (c) cattle

## B. Match the columns.

### Column A

1. Kharif season
2. Rabi season
3. Rice
4. Spices
5. Progress in agriculture

### Column B

- (a) West Bengal, the largest producer
- (b) groundnut
- (c) oilseeds
- (d) Green Revolution
- (e) Kerala and Karnataka

## C. Answer these questions.

1. Differentiate between the kharif and rabi seasons. Give two crops of each season.

**Ans.** The kharif season begins with pre-monsoon showers. The main kharif crops are rice, maize, millets, pulses, groundnut, cotton and jute.

The rabi season begins when the rainy season is over. The main rabi crops are wheat, gram, mustard, barley and oilseeds.

2. What is agriculture?

**Ans.** Agriculture includes the cultivation of crops, horticulture, rearing of animals and fishing.

3. What is the Green Revolution?

**Ans.** In India, there has been continuous progress in agriculture. This is due to improved irrigation facilities, improved seeds, high use of fertilisers, manures and pesticides. This continuous progress in agriculture production is called the Green Revolution.

4. What climatic conditions are required for growing wheat?

**Ans.** Wheat needs a cool and moist climate at the time of sowing and growing. The warm and dry climate is useful at the time of harvesting. Wheat grows well in Punjab, Haryana, western Uttar Pradesh, Madhya Pradesh, Bihar, Rajasthan, Gujarat and Maharashtra.

## THINK AND ANSWER

### D. Why is rice a staple food in India?

**Ans. Hint:** Rice is produced in large quantity.

## LET US DO

### E. Activity

Find out the names of different crops in the word grid. Collect a picture of each of them and paste it in your scrapbook.

C	O	T	T	O	N	X	W	T	U
P	I	T	Z	X	Y	W	H	R	P
L	L	J	N	M	T	U	E	X	Z

C	S	U	G	A	R	C	A	N	E
R	E	T	L	I	J	O	T	E	A
P	E	E	M	Z	K	F	U	V	W
Q	D	R	N	E	L	F	X	Y	Z
Z	S	T	G	H	M	E	T	O	O
P	L	M	N	O	P	E	T	U	V

### VALUE CORNER

**F. Agriculture, in India, solely depends on nature, especially the rainfall. Farmers take lots of pain to produce foodgrains. So, you should never waste food. Wasting food is an insult to the farmers.**

**Ans.** Do it yourself.

### LIFE SKILLS

**G. If a farmer wants to know from you what crop he should grow in his field, what questions will you ask him before giving him your suggestion?**

- Ans. Hint:**
1. Where does he live?
  2. What is the type of soil?
  3. What type irrigation system is he using?
  4. What is the size of land?

# 4. India—Industries

## ANSWERS

### WARM UP

Match the companies with their logos.

Company	Logo
1. Ashok Leyland	(a) 
2. SAIL	(b) 
3. MMTC	(c) 
4. Maruti Suzuki	(d) 

### CHECK YOUR STUDY

A. Tick (✓) the correct answers.

1. This industry is agro-based.

(a) Sugar  (b) Chemical  (c) Iron and steel

2. Which one is not a raw material?

(a) Cloth  (b) Cotton  (c) Gold

3. Which city is not a major industrial region?

(a) Bengaluru  (b) Chennai  (c) Ayodhya

4. Handloom weaving is a part of

(a) small-scale industries   
 (b) cottage industries   
 (c) large-scale industries

B. Name two places where these industries have developed.

1. Cotton textile: (a) Ahmedabad (b) Varanasi

2. Automobile: (a) Mumbai (b) Gurgaon (Gurugram)

3. Iron and steel: (a) Jamshedpur (b) Durgapur

4. Aircraft: (a) Bengaluru (b) Nashik

5. Fertiliser: (a) Nangal (b) Sindri

C. Write short notes on the following.

1. Large-scale industries

**Ans.** Large-scale industries require big power-driven plants and employ a large number of skilled and unskilled workers. The production of finished goods is also on a large scale. Examples of large-scale industries are iron and steel plants, textile mills, oil refineries, automobile industry, chemical plants, etc. They play an important role in the development of the country.

**2. Agro-based industries**

**Ans.** An agro-based industry is an industry that uses agricultural products as raw materials. Important agro-based industries are cotton textiles, woollen textiles, silk textiles, jute textiles, sugar, vegetable oil, food processing, etc.

**3. Household industries**

**Ans.** The household industry is also called the cottage industry. It is run by family members. They use locally available raw materials, such as wood, cane, brass, clay, stone, etc. They use simple tools. Carpet weaving, handloom, handicrafts, leather goods, toy making basket making, etc., are cottage industries.

**D. Guess what type of industries these are. Write their names.**

1. Large-scale

2. Agro-based

3. Cottage

**E. Answer these questions.**

**1. What is a manufacturing industry?**

**Ans.** The process of converting raw materials into useful finished goods is called manufacturing. Manufacturing is done by an industry.

**2. How are large-scale industries different from small-scale industries?**

**Ans.** Large-scale Industries require big power-driven plants and employ a large number of skilled and unskilled workers. The production of finished goods is also on a large scale. Examples of large-scale industries are iron and steel plants, textile mills, oil refineries, automobile industry, chemical plants, etc. They play an important role in the development of the country.

Small-scale industries employ a few workers and produce mostly consumer goods. They also use small machines. The factories are also small. The factories producing garments, automobile parts, hosiery goods, plastic goods, furniture, utensils, electrical appliances and leather goods are included in small-scale industries.

**3. Distinguish between agro-based and mineral-based industries.**

**Ans.** India has both agro-based industries and mineral-based industries. An agro-based industry is an industry that uses agricultural products as raw materials. Important agro-based industries are cotton textiles, woollen textiles, silk textiles, jute textiles, sugar, vegetable oil, food processing, etc.

A mineral-based industry is an industry that uses minerals as raw materials. Important mineral-based industries are iron and steel, transport equipment, machine tools,

cement, fertilisers and chemicals.

4. What are the main features of the cottage industry?

**Ans.** The cottage industry is also called the household industry. It is run by family members. They use locally available raw materials, such as wood, cane, brass, clay, stone, etc. They use simple tools. Carpet weaving, handloom, handicrafts, leather goods, toy making, basket making, etc., are cottage industries. The cottage industry needs less investment (capital) and manpower.

5. Which factors influence the establishment of an industry?

**Ans.** Industries grow where the raw materials, source of power and markets are easily available.

### THINK AND ANSWER

**F. Imagine that you want to set up a schoolbag-making industry. What necessary things will you need for that? Write them down.**

**Ans.** Raw materials, capital, labour and market.

### LET US DO

#### **G. Activity**

Fill in the table with information collected with the help of the Internet.

Name of Countries	Automobile Industries	IT Industries
UK	Birmingham	London
USA	Detroit	Silicon Valley (California)
Germany	Berlin	Berlin
Japan	Nagoya	Ota
Russia	Moscow	Moscow

### LIFE SKILLS

**H. All types of industries cause pollution. Some of them like thermal power, leather and cement industries cause too much pollution. These industries should be set up far away from human settlements.**

**Ans.** Do it yourself.

# 5. India—Transport and Communication

## ANSWERS

### WARM UP

Name the road that connects Delhi-Kolkata-Chennai-Mumbai-Delhi.  
Collect a picture of the road and paste it here.

**Ans.** Golden Quadrilateral.

### CHECKPOINT

**Fill in the blanks with information from the text.**

1. The first train steamed off from Bombay to Thane in 1853.
2. The Indian Railways are divided into 16 zones.
3. Air transport was started in India in 1911.

### CHECK YOUR STUDY

**A. Tick (✓) the correct answers.**

1. Which of the following brings people closer?

(a) Communication  (b) Ocean  (c) Space

2. The Shatabdi Express is a

(a) local train  (b) goods train  (c) superfast train

3. In India, the national television broadcasting service is

(a) Zee TV Channel  (b) Discovery channel  (c) Doordarshan

**B. Fill in the blanks with information from the text.**

1. Waterways is the most suitable means for transporting heavy goods.
2. Airways is the fastest means of travel.
3. Tankers carry oil and petroleum products.
4. We use Internet to send an e-mail.

**C. Answer these questions.**

1. How did early man transport goods?

**Ans.** Early man carried goods himself. Later on, he used animals to carry the goods.

2. What does the National Highway Authority of India (NHAI) do?

**Ans.** NHAI builds and maintains national highways.

3. Where and when did the first train service start in India?

**Ans.** Mumbai to Thane. The train service started in 1853.

4. Which cities of India have the metro rail service?

**Ans.** Kolkata, Delhi, Mumbai and Bengaluru.

5. What role do newspapers and magazines play?

**Ans.** They bring us information about the different events happening in the world.

### THINK AND ANSWER

**D. Why are the railways considered a lifeline of the Indian transport system? Discuss in the class. If possible, collect some necessary data and information.**

**Ans. Hint:** Railways carry lakhs of people and lakhs of tonnes of goods every day.

### LET US DO

**E. Project**

Find out why the telegram was discontinued in our country.

**Ans. Hint:** Due to technological advancement, it became outdated.

### VALUE CORNER

**F. Try to use a bicycle as far as possible because it does not cause any pollution and cycling is a good exercise.**

### LIFE SKILLS

**G. You are supposed to book a ticket for travelling from Mumbai to Chennai. You went to the railway ticket reservation counter. But, you learnt that all the seats had been booked earlier and there was no seat for you. Outside the counter, you met a stranger who said that he would give you a ticket for the said journey. What should you do? Discuss in the class.**

**Ans. Hint:** I should not buy tickets from an unauthorised person.

## PERIODIC TEST 3

**A. Tick (✓) the correct answers.**

1. Which of the following is not a Union Territory?

(a) Chandigarh  (b) Puducherry  (c) Sikkim

2. Which one affects the climate of an area?

(a) Mountain  (b) Seaport  (c) Airport

3. India has \_\_\_\_\_ per cent of the total population of the world.

(a) 16  (b) 18  (c) 25

4. Wheat is cultivated in

(a) the kharif season  (b) the rabi season  (c) both seasons

5. Which of the following is not a raw material?

(a) Cloth  (b) Cotton  (c) Gold

**B. Fill in the blanks.**

1. The Garhwal and \_\_\_\_\_ Kumaon \_\_\_\_\_ regions of the Himalayas form Uttarakhand.

2. Another name of the Rajasthan Canal is the Indira Gandhi Canal.
3. Metals are separated from ore through a process called smelting.
4. The average density of the population of India is 382 per square kilometre.
5. The Indian Railways is divided into 16 zones.

**C. State whether True or False.**

- |                                                                                        |              |
|----------------------------------------------------------------------------------------|--------------|
| 1. The cottage industry employs a larger number of people.                             | <u>False</u> |
| 2. Jute is called the golden fibre of India.                                           | <u>True</u>  |
| 3. Iron is the ore of aluminium.                                                       | <u>False</u> |
| 4. The foothills of the Himalayas are called Terai.                                    | <u>True</u>  |
| 5. Radio, television, newspapers and magazines are called means of mass communication. | <u>True</u>  |

**D. Match the following.**

**Column A**

1. Anai Mudi, about 2,695 metres high,
2. Arunachal Pradesh
3. Jaipur, the capital of Rajasthan,
4. About 70 per cent of India's population
5. Large scale industries

**Column B**

- (a) lives in villages.
- (b) is the highest peak in the Southern Plateaus.
- (c) require big power-driven plants and employ a large number of workers.
- (d) is the largest state in the north-east.
- (e) is also called the Pink City.

**E. Answer the following questions.**

1. How is a Union Territory different from a State?

**Ans.** The Union Territories are under the control of the Central Government. The States are under the control of their respective State Governments.

2. What are sand dunes and how do they shift from one part of the desert to another?

**Ans.** Low hills of sand in deserts are called sand dunes. Strong winds can move sand dunes from one part of the desert to another.

3. Name any two trees grown in the thorn forests.

**Ans.** Babul and Kikar.

4. Which factors influence the establishment of an industry?

**Ans.** Availability of raw materials, source of power and markets are the main factors that influence the establishment of an industry.

5. Name any two plantation crops.

**Ans.** Tea and coffee.

# 6. Our Rights and Duties

## ANSWERS

### CHECKPOINT

Answer these questions orally.

1. What does a constitution contain?

**Ans.** A constitution of a country contains the laws of that country.

2. When do we celebrate the Republic Day?

**Ans.** 26 January every year.

### CHECK YOUR STUDY

**A. Tick (✓) the correct answers.**

1. India has which type of government?

(a) Monarchical  (b) Dictatorial  (c) Democratic

2. The people of India enjoy \_\_\_\_\_ Fundamental Rights.

(a) four  (b) five  (c) six

3. We have \_\_\_\_\_ Fundamental Duties.

(a) six  (b) eight  (c) ten

**B. Write in one word.**

1. A legal document which contains basic laws Constitution

2. The rights given to every citizen of India Fundamental Rights

3. The form of government chosen through elections Democratic

4. A member of a country who has certain rights and is expected to perform certain duties Citizen

**C. Answer these questions.**

1. What do you mean by a democratic country?

**Ans.** A democratic country is a country whose government is elected by its people.

2. Why is India called a Secular State?

**Ans.** This is because in India, every citizen is free to choose and follow any religion.

3. How do Rights give us protection?

**Ans.** The Rights are protected by courts. We can go to the court if any of our Rights are violated.

4. State any two objectives of the Directive Principles of State Policy.

**Ans.** (a) Provide proper living conditions

(b) Provide work for everyone.

### THINK AND ANSWER

**D. Explain the following:**

Rights  $\longleftrightarrow$  Duties

**Ans. Hint:** We can demand our rights only when we fulfil our duties.

### LET US DO

**E. Project**

Frame a few rights and duties for a student.

**Ans.** Do it yourself.

### VALUE CORNER

**F. One's rights are secured by one's duties.**

# 7. India—The National Symbols

## ANSWERS

### WARM UP

Write the name of the national symbol that you see in this picture.

**Ans.** It is our National Emblem.

### CHECKPOINT

**Fill in the blanks with information from the text.**

1. A country's independence and sovereignty is expressed by its National Flag.
2. Our National Flag is called the Tricolour.
3. The wheel of our National Flag has 24 spokes.
4. Our National Emblem has 4 lions.
5. Our National Song was written by Bankim Chandra Chatterjee.

### CHECK YOUR STUDY

**A. Tick (✓) the correct answers.**

1. In our National Flag, saffron stands for  
(a) sacrifice  (b) wealth  (c) prosperity
2. Our National Tree is the  
(a) banana tree  (b) babul tree  (c) banyan tree
3. The National Emblem has been adopted from the Lion Capital of a pillar erected by  
(a) King Chandragupta  (b) King Ashoka  (c) King Harsha

**B. Match the columns.**

#### Column A

1. Green colour
2. The bull

#### Column B

- (a) strength
- (b) good taste

- |                |                |
|----------------|----------------|
| 3. Tiger       | (c) hard work  |
| 4. The peacock | (d) prosperity |
| 5. The mango   | (e) beauty     |

**C. Answer these questions.**

1. What is the National Flag of India?

**Ans.** Tricolour.

2. What is the colour of the wheel?

**Ans.** Blue.

3. When is the National Flag not hoisted?

**Ans.** After sunset.

4. What is written at the bottom of our National Emblem?

**Ans.** 'Satyameva Jayate'.

THINK AND ANSWER

**D. You must have noticed that during the inauguration of multi-national sports events like the Olympics, the sportspersons of each country carry their national flag and sing the national anthem. Why do they do so?**

**Ans.** To bring unity and universal friendship.

LET US DO

**E. Activity**

Draw a picture of our National Flower and colour it. Write about it.

**Ans.** Do it yourself.

VALUE CORNER

**F. We should respect our National Symbols as well as the national symbols of other countries.**

# 8. India's Rich Heritage

## ANSWERS

### WARM UP

Can you identify this building? Write its name.

**Ans.** Karnataka Vidhan Soudha

### CHECKPOINT

**Answer these questions.**

1. How many languages and dialects are spoken in India?

**Ans.** 800.

2. How many official languages have been recognised by the Constitution of India?

**Ans.** 22.

3. Where is the Gol Gumbaz?

**Ans.** Bijapur, Karnataka.

4. Where is Carnatic music practised?

**Ans.** South India.

### CHECK YOUR STUDY

**A. Tick (✓) the correct answers.**

1. This language is spoken in almost all the States of India.

(a) Hindi  (b) Telugu  (c) Tamil

2. This language is one of the official languages of India.

(a) Kannada  (b) Sanskrit  (c) English

3. Bihu dance form is popular in

(a) Assam  (b) Rajasthan  (c) Kerala

4. Bhimbetka is famous for its

(a) folk dance  (b) churches  (c) cave paintings

**B. Fill in the blanks.**

1. The different forms of a language are called dialects.

2. The style of writing a language is called script.

3. The small-sized paintings of Rajasthan are called miniatures.

4. Paintings are displayed in an art gallery.

**C. Answer these questions.**

1. What is the dance-drama form? Name any dance drama form.

**Ans.** In a dance drama, stories are told through dance, e.g., Kathakali.

2. How many types of classical music are there in India? Name them.

**Ans.** There are two types of classical music in India. These are Hindustani music and Carnatic music.

3. Name a few temples that have excellent architecture.

**Ans.** India is popularly called the land of temples, forts and palaces. The ancient temples of Madurai, Thanjavur, Belur, Halebid, Dilwara, Ranakpur, Khajuraho, Puri, Konark and the Kailash temple at Ellora are known for their artistic work all over the world.

4. Where is the Lotus Temple situated?

**Ans.** New Delhi.

## THINK AND ANSWER

**D. What is the role of languages in cultural diversity? Write a few lines on it.**

**Ans.** Language is a vehicle through which the people of a country or region express their art, literature and culture.

## LET US DO

**E. Project**

Collect information and pictures of a few classical and Carnatic singers of India.

**Ans.** Do it yourself.

**F. Activity**

Write the names and collect pictures of a few architectural heritage marvels of your State/ Union Territory.

**Ans.** Do it yourself.

## VALUE CORNER

**G. You should respect others' languages and cultures. These enrich the world.**

## LIFE SKILLS

**H. Heritage, especially architectural heritage, is a heritage of the whole mankind, not of any community, race or nation.**

During World War II, the Allies (England, France, Poland, etc.) discovered that German soldiers were using the Leaning Tower as an observation post. A US Army sergeant was sent to confirm the presence of German troops in the tower. The sergeant was so impressed by the beauty of the cathedral that he refrained from ordering an artillery strike, thus sparing it from destruction.

What would you have done if you were in the place of that sergeant?

**Ans.** Do it yourself.

# 9. They Enriched Our Thoughts

## ANSWERS

### CHECKPOINT

Tick (✓) the correct statement.

1. The Vedas are the holy books of the (Christians/Hindus✓).
2. The concept, 'Live and Let Live' was given by (Lord Buddha/Lord Mahavira✓).
3. Guru Nanak Dev founded the (Sikh✓/Parsi) religion.
4. Raja Rammohan Roy fought against (corruption/sati system✓).
5. The Battle of Kalinga changed the course of the life of Emperor (Ashoka✓/Akbar).

### CHECK YOUR STUDY

A. Tick (✓) the correct answers.

1. Lord Mahavira was the \_\_\_\_\_ Tirthankara.  
 (a) 14th  (b) 24th  (c) 34th
2. The Upanishads belong to this religion.  
 (a) Hinduism  (b) Islam  (c) Zoroaster
3. The holy book of the Muslims is the  
 (a) Bible  (b) Zend Avesta  (c) Quran
4. The Parsi religion was founded in  
 (a) Iran  (b) India  (c) Nepal

B. Find out the names of religions practised in India hidden in the word grid.

B	T	J	A	I	N	I	S	M	C

H	I	N	D	U	I	S	M	I	I
K	M	O	Q	E	A	B	C	D	T
L	N	P	R	F	Z	H	I	J	Y

**C. Answer these questions.**

1. What did Raja Rammohan Roy do for the improvement of society?

**Ans.** Raja Rammohan Roy lived in Bengal about 250 years ago. He fought against the practice of child marriage, caste system and sati (burning of the widow along with the body of her dead husband). He forced the government to pass a law against the sati system.

2. What are the main teachings of Lord Buddha?

**Ans.** He preached truth and non-violence.

3. What are the main teachings of Kabir?

**Ans.** Kabir worked against the caste system, blind faith and unnecessary rituals in all religions. He spread his message of love and brotherhood through *dohas* and bhajans.

THINK AND ANSWER

**D. Why is Ashoka considered one of the greatest kings?**

**Ans. Hint:** He established peace and nonviolence.

LET US DO

**E. Project**

Collect information about Ishwar Chandra Vidyasagar's contribution in modernising India.

**Ans. Hint:** Visit site [www.indiansaga.com/history/reforms\\_vidyasagar.html](http://www.indiansaga.com/history/reforms_vidyasagar.html)

VALUE CORNER

**F. We should always respect other religions.**

**MODEL TEST PAPER**

**A. Tick (✓) the correct answers.**

1. The dam built on the Sutlej is

(a) Mahanadi  (b) Bhakra  (c) Hirakund

2. This river flows through the Thar Desert.

(a) Luni  (b) Ganga  (c) Ganga

3. The Shatabdi Express is a

(a) local train  (b) goods train  (c) superfast train

4. The people of India enjoy \_\_\_\_\_ Fundamental Rights.

(a) four  (b) five  (c) six

5. In our National Flag, saffron stands for

(a) sacrifice  (b) wealth  (c) prosperity

**B. Fill in the blanks.**

1. The different forms of a language are called \_\_\_\_\_ dialects \_\_\_\_\_.

2. Lord Mahavira was the 24th Tirthankara.
3. The National River of India is Ganga.
4. The staple food of India is rice.
5. The southernmost tip of India is the Indira Point.

**C. State whether True or False.**

- |                                                                                                |              |
|------------------------------------------------------------------------------------------------|--------------|
| 1. Uttar Pradesh is the largest State in India.                                                | <u>False</u> |
| 2. At present, about 22 per cent of the total area of India is under vegetation.               | <u>True</u>  |
| 3. The Indian Constitution recognises 25 languages.                                            | <u>False</u> |
| 4. In India, air transport was started in 1911.                                                | <u>True</u>  |
| 5. 'Protect and take care of public property' is a Fundamental Duty of every citizen of India. | <u>True</u>  |

**D. Match Column A with Column B.**

- | Column A               | Column B                            |
|------------------------|-------------------------------------|
| 1. Making jute bags    | (a) mass communication              |
| 2. Ganga               | (b) composer of the National Anthem |
| 3. Radio               | (c) longest river in India          |
| 4. Rabindranath Tagore | (d) popular folk dances of Punjab   |
| 5. Bhangra and Gidda   | (e) agro-based industry             |

**E. Write 'R' for Rights and 'D' for Duties against the following statements.**

- |                                                                                                          |   |
|----------------------------------------------------------------------------------------------------------|---|
| 1. Getting pure drinking water from the municipality.                                                    | R |
| 2. Protecting our monuments.                                                                             | D |
| 3. Obeying traffic rules.                                                                                | D |
| 4. Going to a place of worship of your choice.                                                           | R |
| 5. I am a person with disability. I want to get admission in an educational institution as per my merit. | R |

**F. Draw and colour the National Flag of India.**

**Ans.** Do it yourself.

**G. Answer the following questions.**

1. Write the names of the states in India that produce coal.

**Ans.** Jharkhand, Odisha, Chhattisgarh.

2. How are Rights and Duties closely related?

**Ans.** Rights and Duties are inseparable. They are two sides of the same coin. Every Right has a corresponding Duty. For example, if one has a right to vote, it is the duty of that person the exercise that Right judiciously in electing the right candidate without being swayed by religious, caste and monetary considerations.

3. Write the significance of India's National Emblem.

**Ans.** Our National Emblem has four lions. The lions guard the four lions directions. They are symbols of courage and power. Only three out of the four lions are visible at a time. The base of the lions has galloping horse on the left and a mighty bull on the right. The horse stands for energy and speed. The bull stands for hard work. In between the horse and the bull, lies a Wheel—the wheel of the Law. The wheel on the National Flag has been adopted from it. And below the Wheel of the Law is written 'Satyameva Jayate' which means 'Truth alone triumphs'. The words are written in the Devanagari script.

4. Who was Ramabai Ranade? What role did she play in social reformation in India?

**Ans.** Ramabai Ranade was a well-known social reformer in Maharashtra. She devoted her life to educate women and get them a place of respect in the society. She started the Poona Sewa Sadan to help women and orphans.

5. Name the main coniferous trees.

**Ans.** Pine, cedar, fir, chir and spruce.

**H. Identify the following pictures.**

M.S. Swaminathan

National Emblem

Bankim Chandra Chatterjee

Victoria Memorial

J. C. Bose

**SCIENCE – 5**  
**SEMESTER**

**2**

# Wonders of Air

## ANSWERS

### WARM UP

On blowing, air takes the space inside the balloon and makes it bigger in size.

### CHECKPOINT 1

**Rewrite the following statements correctly.**

1. Moving air is called atmosphere.  
*Moving air is called wind.*
2. The most abundant gas in air is oxygen.  
*The most abundant gas in air is nitrogen.*
3. Water from water bodies condenses to form water vapour.  
*Water from water bodies evaporates to form water vapour.*
4. All living things breathe in air to get nitrogen.  
*All living things breathe in air to get oxygen.*
5. Carbon dioxide is used to make fertilisers.  
*Nitrogen is used to make fertilisers.*

### CHECKPOINT 2

**Tick (✓) the correct word.**

1. Air has colour/mass (✓).
2. Air exerts pressure in all (✓)/sideways directions.
3. Forest fire cleanses/pollutes (✓) air.
4. Acid rain polishes/weakens (✓) iron structures.

### CHECK YOUR STUDY

**A. Fill in the blanks.**

1. The atmosphere extends upto a height of 800 km.
2. Oxygen is needed for burning.
3. Plants get nitrogen from soil.
4. Air exerts pressure in all directions.

**B. Write True or False.**

- |                                                                |              |
|----------------------------------------------------------------|--------------|
| 1. We can live without air.                                    | <u>False</u> |
| 2. Air consists of only oxygen and nitrogen.                   | <u>False</u> |
| 3. Air has mass and occupies space.                            | <u>True</u>  |
| 4. The most plentiful gas in the atmosphere is carbon dioxide. | <u>False</u> |
| 5. The percentage of oxygen in the air keeps changing.         | <u>False</u> |

**C. Tick (✓) the correct answers.**

1. Which of these gases is present in the highest amount in air?  
(a) Nitrogen  (b) Oxygen  
(c) Carbon dioxide (d) Helium
2. Which of these gases controls fire?  
(a) Nitrogen  (b) Oxygen  
(c) Both nitrogen and oxygen (d) None of these
3. What is the percentage of oxygen gas in the air?  
(a) 71 (b) 21   
(c) 78 (d) 0.03
4. Air pollution can  
(a) cause irritation of eyes, nose and throat  
(b) lead to depletion of ozone layer  
(c) damage the leaves of plants  
(d) all the above
5. Which of these is the property of air?  
(a) Air has no mass (b) Air does not occupy space  
(c) Air exerts pressure  (d) None of these

**D. Answer these questions.**

1. What is the composition of air?

**Ans.** Air is a mixture of 78 per cent nitrogen, 21 per cent oxygen, 0.03 per cent carbon dioxide, 0.97 per cent water vapour and other gases.

2. How is oxygen useful to us?

**Ans.** All living things breathe in oxygen to live. Oxygen is also needed for burning fire.

3. How is carbon dioxide useful to plants?

**Ans.** The carbon dioxide present in the air is used by green plants to prepare food by the process of photosynthesis.

4. How is nitrogen useful?

**Ans.** All living things need nitrogen for making proteins. Nitrogen is used to make fertilisers which help in the growth of plants. Nitrogen does not help in burning of a substance but it helps in controlling fire.

5. What are the properties of air?

**Ans.** Air has following properties:

- (a) Air has mass.
- (b) Air occupies space.
- (c) Air exerts pressure in all directions.

6. What is air pollution? Write two main man-made causes of air pollution.

**Ans.** The presence of unwanted and harmful materials in air is called air pollution. Its main causes are smoke and harmful gases released due to burning of fossil fuels in automobiles and industries.

7. Write four effects of air pollution.

**Ans.** Four effects of air pollution are as follows:

- (a) Air pollution causes diseases like asthma, bronchitis and lung cancer.
- (b) It causes irritation of eyes, nose and throat.
- (c) It damages the ozone layer which protects us from harmful rays of the sun.
- (d) It causes acid rain which damages buildings, monuments and iron structures such as bridges, pillars, etc.

8. Write four ways to reduce air pollution.

**Ans.** We can reduce air pollution by following four ways:

- (a) We should plant more trees as they remove carbon dioxide from the air and release oxygen into the atmosphere.
- (b) Vehicles should be checked regularly to prevent release of harmful gases.
- (c) We should not burn dry leaves. Instead, we should make compost out of them.
- (d) We should use non-polluting fuels like CNG for cars and buses.

**E. Find and encircle the words in the wordsearch with the help of given clues.**

1. Blanket of air surrounding the earth – *Atmosphere*
2. Moving air – *Wind*
3. Gas needed for burning – *Oxygen*
4. A disease caused due to air pollution – *Asthma*
5. An instrument used to measure air pressure – *Barometer*
6. The component of air used to make fertilisers – *Nitrogen*

Y	D	W	W	I	N	D	O	N	C	E
F	U	I	S	T	R	B	X	L	O	S
R	T	L	B	D	J	O	Q	A	X	R
E	A	X	A	K	O	E	L	D	Y	L
T	S	D	R	C	R	W	A	K	G	I
A	T	M	O	S	P	H	E	R	E	T
I	H	T	M	E	A	M	I	E	N	D
N	M	A	E	R	N	P	L	O	Y	K
A	A	I	T	V	O	C	E	R	A	Q
K	R	A	E	T	E	X	T	M	R	N
N	I	T	R	O	G	E	N	J	F	O

**F. Give reasons for the following:**

1. When you blow up a balloon on which a notebook is kept, the notebook gets lifted.

**Ans.** On blowing, air takes the space inside the balloon and makes it bigger in size. This lifts the notebook.

2. Your mother asks you to burn less crackers on Deepawali.

**Ans.** Burning of crackers is harmful to our environment, health and animals. They cause loud noise and release poisonous gases and a lot of smoke into the air. This causes noise as well as air pollution resulting in many respiratory problems. Animals are very sensitive to loud noise. They cannot bear the sounds produced by crackers. Crackers may also cause fire accidents.

3. You can drink juice using a straw.

**Ans.** We drink juice using a straw because when we suck through the straw, the air pressure inside the straw becomes low and the air pressure exerted on the surface of juice is more. Due to this pressure difference, the juice is pushed inside the straw and reaches our mouth.

4. You cannot drink juice using a straw having a small hole in it.

**Ans.** A straw having a hole in it will have same air pressure inside and outside. In this case, the juice will not be pushed when we suck through the straw.

5. Maria can make bubbles from chewing gum.

**Ans.** The chewing of chewing gum makes it soft. When air is blown into the gum, it takes the space inside the gum making it in bubble shape.

# Matter

## ANSWERS

### WARM UP

Water is shown in solid state. Other states of water are liquid and gaseous states.

### CHECKPOINT 1

#### Fill in the blanks:

1. Anything that occupies space and has mass is called matter.
2. Matter exists as solid, liquid and gas.
3. A cup is a solid, whereas milk is a liquid matter.
4. Atoms combine to form a molecule.
5. Molecules in a liquid are loosely packed as compared to solids.
6. Hydrogen is an element, whereas water is a compound.
7. Air is a mixture of gases.

### CHECKPOINT 2

#### Name the process.

- |                                                       |                        |
|-------------------------------------------------------|------------------------|
| 1. Change of state from solid to liquid               | <u>Melting</u>         |
| 2. Changing a liquid into a solid                     | <u>Freezing</u>        |
| 3. A temporary change                                 | <u>Physical change</u> |
| 4. The property of dissolving of a substance in water | <u>Solubility</u>      |

### CHECK YOUR STUDY

#### A. Fill in the blanks.

1. Everything in nature is made up of matter.
2. Solids have a definite shape and volume.
3. Gases flow in all directions.
4. Oil and water are immiscible liquids.
5. A new substance is formed in a chemical change.

#### B. Write True or False.

- |                                                  |              |
|--------------------------------------------------|--------------|
| 1. Molecules of gases are very loosely arranged. | <u>True</u>  |
| 2. There are only 105 elements known in nature.  | <u>False</u> |
| 3. Gases cannot dissolve in water.               | <u>False</u> |

4. Physical changes are permanent changes. False  
 5. Making of curd from milk is a chemical change. True

**C. Tick (✓) the correct answers.**

1. Which of these are pure substances?  
 (a) element (b) compound  
 (c) mixture (d) both (a) and (b)
2. Copper is  
 (a) an element  (b) a compound (c) a mixture (d) none of these
3. Water is  
 (a) an element (b) a compound   
 (c) an atom (d) none of these
4. The process of changing of a liquid into a solid is called  
 (a) melting (b) freezing  (c) evaporation (d) condensation
5. A mixture of lemon juice mixed in water is an example of  
 (a) miscible liquids  (b) immiscible liquids  
 (c) chemical change (d) None of these

**D. Classify the following into elements, compounds and mixtures.**

SALT IRON SUGAR WATER AIR SOIL CARBON GOLD  
 BAKING SODA SODA WATER HYDROGEN SEA WATER

Elements	Compounds	Mixtures
<u>Iron</u>	<u>Salt</u>	<u>Air</u>
<u>Carbon</u>	<u>Sugar</u>	<u>Soil</u>
<u>Gold</u>	<u>Water</u>	<u>Soda water</u>
<u>Hydrogen</u>	<u>Baking soda</u>	<u>Sea water</u>

**E. State whether each of the following is a chemical change or a physical change.**

1. Boiling of water Physical change  
 2. Melting of ice cream Physical change  
 3. Lighting of a matchstick Chemical change  
 4. Burning of gas in a stove Chemical change  
 5. Rusting of a nail Chemical change  
 6. Tearing of clothes Physical change

**F. Answer these questions.**

1. What do you understand by matter? Write its different forms.

**Ans.** Anything that occupies space and has mass is called matter. The different forms of matter are solid, liquid and gas.

2. Explain any three characteristics of solids.

**Ans.** Three characteristics of solids are:

- (a) Solids have a definite shape and volume.
- (b) Molecules in a solid are very tightly packed.
- (c) Solids cannot flow.

3. Explain any three characteristics of liquids.

**Ans.** Three characteristics of liquids are:

- (a) Liquids do not have definite shape but have a definite volume.
- (b) Molecules in a liquid are loosely packed.
- (c) Liquids can flow.

4. Explain any three characteristics of gases.

**Ans.** Three characteristics of gases are:

- (a) Gases neither have a definite shape nor a definite volume.
- (b) Spaces between molecules are very large.
- (c) Gases flow in all directions.

5. Give any four examples of the most abundant elements in the earth's crust.

**Ans.** The elements that are most abundant in earth's crust are oxygen, silicon, aluminium and iron.

6. Name two gases that are soluble in water? How are they useful?

**Ans.** Oxygen and carbon dioxide gases are soluble in water. Aquatic animals and plants use oxygen gas dissolved in water for respiration. Aquatic plants use carbon dioxide gas dissolved in water for photosynthesis.

7. Give two examples of

- (a) Miscible liquids
- (b) Immiscible liquids

**Ans.** (a) Milk and water, Lime juice and water

(b) Oil and water, Petrol and water

8. Explain the two types of changes with examples.

**Ans.** (a) **Physical changes:** They are reversible changes without forming new products.

Examples: Tearing of page, boiling of water.

(b) **Chemical changes:** They are irreversible changes that form new products.

Examples: Burning of wood, cooking of rice.

**G. Give reasons for the following.**

1. Air is a matter.

**Ans.** Air is considered a matter because it has weight and occupies space.

2. Carbon dioxide gas is a compound.

**Ans.** Carbon dioxide gas is a compound because it has carbon and oxygen combined in a fixed ratio.

**3.** Breaking of a stick is a physical change but burning of a stick is a chemical change.

**Ans.** Breaking of a stick is a physical change because after breaking of the stick no new substance is formed. Burning of stick is a chemical change because on burning, smoke, ash and gases are formed as new substances.

**4.** Shweta mixed vinegar with baking soda in a bowl. She heard a hissing sound and saw a gas coming out. Mixing of vinegar with baking soda is a chemical change.

**Ans.** It is a chemical change because on mixing of vinegar and baking soda, a gas is formed as a new substance.

# Rocks and Minerals

## ANSWERS

### WARM UP

Diamond. It is used in making jewellery, for cutting glass, and to make cutting and polishing tools.

### CHECKPOINT 1

Tick (✓) the correct answer.

- Which of these is an igneous rock?  
(a) granite  (b) sandstone (c) gypsum (d) scoria
- Gneiss glitters because of  
(a) slate (b) mica  (c) granite (d) shale
- Limestone is formed from  
(a) sulphate (b) calcite  (c) granite (d) quartz
- Which of these is not a metamorphic rock?  
(a) quartzite (b) basalt  (c) slate (d) marble

### CHECKPOINT 2

Write True or False.

- Minerals are found in the earth's crust. True
- Bauxite is the ore of aluminium. True
- Gems are used as fuel. False
- Coal is also called crude oil. False
- Fossil fuels are reserved for a limited time. True

### CHECK YOUR STUDY

A. Fill in the blanks.

- The outermost layer of the earth is crust.
- Igneous rocks are also called fire rocks.
- The oldest rocks on the earth are igneous rocks.
- Diamond is the hardest non-metallic mineral.
- Coal, petroleum and natural gas are fossil fuels.

**B. Classify the following into igneous, sedimentary and metamorphic rocks.**

GNEISS MARBLE LIMESTONE SANDSTONE PUMICE SHALE  
SLATE CONGLOMERATE OBSIDIAN GYPSUM GRANITE

Igneous rocks	Sedimentary rocks	Metamorphic rocks
<u>Pumice</u>	<u>Limestone</u>	<u>Gneiss</u>
<u>Obsidian</u>	<u>Sandstone, Shale</u>	<u>Marble</u>
<u>Granite</u>	<u>Conglomerate</u>	<u>Slate</u>
	<u>Gypsum</u>	

**C. Tick (✓) the correct answers.**

- Rocks formed from magma are
  - igneous rocks
  - metamorphic rocks
  - sedimentary rocks
  - both a and b
- Igneous rocks were formed due to
  - earthquakes
  - volcanoes
  - tides
  - storms
- Basalt rocks are also called
  - scoria
  - granite
  - pumice
  - obsidian
- Which is a gemstone?
  - scoria
  - ruby
  - pumice
  - obsidian
- Which fossil fuel is used for generating electricity?
  - kerosene
  - petroleum
  - natural gas
  - coal

**D. Match the following rocks with the minerals they contain.**

- | Rocks           | Minerals     |
|-----------------|--------------|
| 1. Granite      | (a) Sulphate |
| 2. Gypsum       | (b) Calcite  |
| 3. Conglomerate | (c) Quartz   |
| 4. Limestone    | (d) Silica   |

**E. Answer these questions.**

- How do igneous rocks form?

**Ans.** Igneous rocks form by the cooling of magma underground or that of lava on the ground.

- What are metallic minerals and non-metallic minerals? Give three examples of each.

**Ans.** Minerals which contain metals are called metallic minerals.

For example: iron, copper and aluminium.

Minerals which do not have metals in them are called non-metallic minerals.

For example: talc, Plaster of Paris, chalk.

3. How was coal formed? Write its two uses.

**Ans.** Coal was formed by the breakdown of dead remains of plants that got buried in swamps 400 million years ago.

(a) Coal is mainly used as a fuel to run steam engines, in thermal power plants for generating electricity and for cooking food and heating homes.

(b) It is used in the production of steel and cement.

4. How was petroleum formed? What is it used for?

**Ans.** Petroleum was formed by the breakdown of organisms that lived millions of years ago in water and got buried under ocean or river sediments.

Petroleum is used to obtain petrol, diesel, kerosene, lubricating oil, wax and medicinal oils.

5. What is the full form of CNG?

**Ans.** Compressed Natural Gas.

6. Why do we need to conserve fossil fuels?

**Ans.** We need to conserve fossil fuels because they are available in limited amount and take millions of years to be formed. If not conserved, they may last only for a limited time.

7. How can we conserve fossil fuels?

**Ans.** We can conserve fossil fuels by following ways:

(a) Switch off the engine of vehicles at traffic lights.

(b) Walk down or use cycle to go to the nearby market instead of going by a scooter or a car.

(c) Car pool is a good way to reduce the use of fossil fuels.

8. Give the uses of the following:

(a) Granite                      (b) Sandstone                      (c) Diamond                      (d) Kerosene

**Ans.** (a) Granite is used for building monuments, decoration on buildings, making statues and flooring.

(b) Sandstone is used as building stone.

(c) Diamond is used in making jewellery, cutting glass, and for making cutting and polishing tools.

(d) Kerosene is used for cooking and lighting lamps.

**F. Give reasons for the following.**

1. Why do you think the Earth is called the 'third rock' from the sun?

**Ans.** Earth is called the 'third rock' from the sun because it is the third planet in order of distance from the sun and is mainly made of rocks.

2. Why does pumice have a sponge-like structure?

**Ans.** Pumice has a sponge-like structure because it has many small holes.

**3.** Why does a gneiss rock show alternating patterns?

**Ans.** Gneiss rocks have been formed by tremendous heat and pressure, due to which, minerals get arranged in alternating patterns.

**4.** Which of these is a better way to save fuel – using a public transport or an individual self-driven vehicle?

**Ans.** Using a public transport is a better way to save fuel.

# Soil Erosion and Conservation

4

## ANSWERS

### WARM UP

Water

### CHECKPOINT 1

#### State True or False.

1. Soil contains water but no air. False
2. Soil supports the growth of plants. True
3. Weathering of rocks is a fast process. False
4. Water and wind help in weathering of rocks. True
5. Subsoil is the most fertile layer of soil. False

### CHECKPOINT 2

Write **SE** against the activities which cause Soil Erosion and **SC** against those which help in Soil Conservation.

1. A land left bare after harvesting a crop SE
2. Farming by cutting steps SC
3. Covering land by planting grass SC
4. Building embankments on rivers SC
5. Grazing by cattle in the same area SE

### CHECK YOUR STUDY

#### A. Fill in the blanks.

1. The uppermost layer of soil is called topsoil.
2. Breaking up of rocks into tiny pieces forms soil.
3. Settling of soil at the bottom of rivers is called silting.
4. Soil erosion on hill slopes is prevented by terrace forming.
5. Soil erosion causes water pollution.

#### B. Write True or False.

1. Deforestation causes soil erosion. True
2. The protection of soil against erosion is called weathering. False

- |                                                  |              |
|--------------------------------------------------|--------------|
| 3. Soil erosion increases fertility of the soil. | <u>False</u> |
| 4. Wind does not cause soil erosion.             | <u>False</u> |
| 5. Cutting down of trees increases soil erosion. | <u>True</u>  |

**C. Name the following.**

- |                                                                             |                          |
|-----------------------------------------------------------------------------|--------------------------|
| 1. Cutting down of trees on large scale                                     | <u>Deforestation</u>     |
| 2. Carrying away of the topsoil from one place to another by natural agents | <u>Soil erosion</u>      |
| 3. Moving of loose rocks down a slope of a hill                             | <u>Landslide</u>         |
| 4. Protection of soil from erosion                                          | <u>Soil conservation</u> |
| 5. Slow, gradual process of soil formation                                  | <u>Weathering</u>        |

**D. Tick (✓) the correct answers.**

- Decayed remains of plants and animals in the soil is called  
 (a) afforestation      (b) deforestation      (c) humus       (d) soil erosion
- Planting trees in large numbers is called  
 (a) deforestation      (b) soil erosion  
 (c) weathering      (d) afforestation
- Which of these causes soil erosion?  
 (a) wind      (b) water  
 (c) excessive ploughing      (d) all of these
- Which of these statements is correct?  
 (a) The uppermost layer of the soil is least fertile.  
 (b) Topsoil is light in colour.  
 (c) Topsoil is rich in humus.   
 (d) Bedrock is the uppermost layer of soil.
- Soil erosion can be controlled by  
 (a) overgrazing      (b) keeping the land barren  
 (c) dumping waste material      (d) growing grass

**E. Answer these questions.**

1. What is weathering of rocks? How do rocks break and wear away?

**Ans.** Weathering of rocks is a process by which rocks are broken into fine particles by wind and water. The large rocks are initially broken down into small pieces by natural events like earthquakes. This process is carried further by agents like temperature changes, frost, water, wind and living organisms.

2. Name and explain the different layers of soil.

**Ans.** Different layers of soil are the topsoil, the subsoil and the bedrock.

- Topsoil is the uppermost dark and most fertile layer of soil. It is rich in humus.
- Subsoil is found just below the topsoil. It is light coloured because it contains less amount of humus as compared to topsoil.
- Bedrock is hard and non-porous layer of soil. It is formed of parent rock.

3. Which human activities cause soil erosion? Explain.

**Ans.** Following human activities cause soil erosion:

- (a) **Deforestation:** When trees are cut down, soil becomes loose and is easily carried away by water or wind.
- (b) **Overgrazing:** Overgrazing by animals in a particular area makes the land barren and causes soil erosion.
- (c) **Excessive ploughing:** Ploughing of farmland loosens the soil which is easily carried by wind or water.
- (d) **Unprotected soil:** Sometimes soil is left bare for a long time after harvesting. This unprotected soil can be easily blown away by water and wind.

4. What is silting?

**Ans.** Silting is the deposition of soil at the bottom of a river.

5. What are the effects of soil erosion?

**Ans.** Soil erosion makes the land barren. It causes floods, water pollution, famines, and landslides in hilly areas which can result in the loss of life and property.

6. What do you understand by soil pollution?

**Ans.** The accumulation of harmful chemicals, polythene bags, etc. in soil is called soil pollution.

7. What are the different ways by which soil gets polluted?

**Ans.** Soil gets polluted by following ways:

- (a) Dumping of wastes into open areas.
- (b) Releasing industrial wastes into the soil.
- (c) Excessive use of pesticides, insecticides and chemical fertilisers by farmers.
- (d) Dirty water seeps into the soil from wastes.

8. What is soil conservation? In what ways can soil be conserved?

**Ans.** The protection of soil from erosion is called soil conservation. Soil can be conserved by following ways:

- (a) **Planting trees or afforestation:** Roots of plants hold the soil particles together and protect the soil from being carried away by wind or water.
- (b) **Terrace farming:** On hill slopes, terrace farming is done. This reduces the speed of water and prevents the soil from being flown downhill.
- (c) **By growing grass:** The grass has spreading roots. It covers the topsoil quickly and holds it firmly. This controls soil erosion.
- (d) **Constructing dams and embankments:** Dams and embankments are built on rivers to check soil erosion by floods or running water.

**F. Give reasons for the following.**

1. Briju was advised not to leave his cattle in the same forest area for grazing regularly.

**Ans.** Cattle should not be made to graze at the same place regularly because this would make the land loose and bare leading to soil erosion.

2. Humans are responsible for soil erosion.

**Ans.** Humans are responsible for soil erosion because human activities such as deforestation, overgrazing by farm animals, too much ploughing of farmland and leaving land bare after harvesting cause soil erosion.

3. Vanmahotsava is celebrated in schools.

**Ans.** Vanmahotsava is celebrated in schools to encourage children to grow more plants to prevent soil erosion and to conserve soil. It also makes them aware about the importance of plants.

4. Soil erosion is a cause of concern.

**Ans.** Soil erosion is a cause of concern because it makes land barren, leads to floods, water pollution, famines, landslides, etc. These calamities result in loss of life and property.

5. We need to protect our soil.

**Ans.** We need to protect our soil because it is important for all living things. Plants grow in the soil. We all are dependent on plants for food, clothing and shelter. Burrowing animals such as rabbit, rat, etc. and many other organisms like bacteria, fungi, worms and insects live in soil. We also build our houses on the soil. Soil is also used for making bricks, pottery, toys, etc. Thus, living things cannot live without soil.

# PERIODIC TEST 3

Time: 45 Minutes

Maximum Marks: 30

**A. Fill in the blanks by choosing correct words from the box. (5)**

balanced   deforestation   chemical   gases   igneous

1. Fertilisers are obtained from chemical substances.
2. Deficiency diseases can be avoided by eating a balanced diet.
3. Gases flow in all directions.
4. The oldest rocks on the earth are igneous.
5. The cutting down of trees on a large scale is called deforestation.

**B. Write True or False against each statement. (5)**

- |                                                              |              |
|--------------------------------------------------------------|--------------|
| 1. Tibia is the longest bone in our body.                    | <u>False</u> |
| 2. We need rest and sleep to keep our body fit.              | <u>True</u>  |
| 3. Medicines should be accessible to all the family members. | <u>False</u> |
| 4. Nitrogen is the most abundant gas in air.                 | <u>True</u>  |
| 5. Weathering of rocks is a fast process.                    | <u>False</u> |

**C. Match the following. (5)**

- | Column A           | Column B            |
|--------------------|---------------------|
| 1. Cochlea         | (a) Non-porous      |
| 2. Melting of wax  | (b) Rich in humus   |
| 3. Rusting of iron | (c) Physical change |
| 4. Topsoil         | (d) Internal ear    |
| 5. Bedrock         | (e) Chemical change |

**D. Tick (✓) the correct answers. (5)**

1. Which of the following is a migratory bird?  
 (a) Sparrow                      (b) Crow                      (c) White stork                       (d) Parrot
2. The percentage of oxygen in air is  
 (a) 0.03%                      (b) 21%                       (c) 71%                      (d) 78%
3. Water is a/an  
 (a) Element                      (b) Atom  
 (c) Compound                       (d) Mixture
4. Which of the following is not a metamorphic rock?  
 (a) Basalt                       (b) Slate                      (c) Marble                      (d) Quartzite
5. Which of the following causes soil erosion?  
 (a) Water                      (b) Wind  
 (c) Excessive ploughing                      (d) All of these

**E. Answer these questions.**

**(10)**

1. How is carbon dioxide useful to plants?

**Ans.** The carbon dioxide present in the air is used by green plants to prepare food by the process of photosynthesis.

2. Explain two types of changes with examples.

**Ans.** (a) Physical changes: They are reversible changes without forming new products.

Examples: Tearing of page, boiling of water.

(b) Chemical changes: They are irreversible changes that form new products.

Examples: Burning of wood, cooking of rice.

3. How are igneous rocks formed?

**Ans.** Igneous rocks form by the cooling of magma underground or that of lava on the ground.

4. Why do we need to conserve fossil fuels?

**Ans.** We need to conserve fossil fuels because they are available in limited amount and take millions of years to be formed. If not conserved, they may last only for a limited time.

5. What are the effects of soil erosion?

**Ans.** Soil erosion makes the land barren. It causes floods, water pollution, famines, and landslides in hilly areas which can result in the loss of life and property.

# Force, Energy and Simple Machines

## ANSWERS

### WARM UP

Knife

### CHECKPOINT 1

**Rewrite the following statements correctly.**

1. The force of friction makes a coin move in the downward direction.  
Gravity makes a coin move in the downward direction.
2. Machines apply muscular force to do something.  
Machines apply mechanical force to do something.
3. The downward push of water on an object is called buoyant force.  
The upward push of water on an object is called buoyant force.

### CHECKPOINT 2

**Fill in the blanks.**

1. Wind energy is used to run a windmill.
2. The energy possessed by an object due to its position is called potential energy.
3. The energy of the sun is called solar energy.

### CHECKPOINT 3

**Fill in the blanks.**

1. A machine makes our work easier.
2. There are three types of levers.
3. A fishing rod is an example of third class lever.
4. A screw is an inclined plane wrapped around a rod.
5. A pulley helps us by changing the direction of the force.

## CHECK YOUR STUDY

### A. Tick (✓) the correct answers.

- A force can
  - change the shape of an object
  - change the speed of an object
  - stop a moving object
  - all of these
- A moving car slowly stops when its engine is turned off. Which force is responsible for this?
  - muscular force
  - magnetic force
  - electrostatic force
  - frictional force
- The engine of a train pulls the coaches attached to it. Which force is responsible for this?
  - mechanical force
  - gravitational force
  - magnetic force
  - electrostatic force
- Which energy is used to run a computer?
  - heat energy
  - solar energy
  - electrical energy
  - wind energy
- The energy possessed by an object due to its position is called
  - hydro energy
  - sound energy
  - potential energy
  - solar energy

### B. Fill in the blanks.

- Buoyant force is also known as upthrust.
- The force caused due to charged objects is called electrostatic force.
- A solar cell converts solar energy into electrical energy.
- Sound energy is produced due to vibrations.
- The point of support on a lever that does not move is called fulcrum.
- A pulley is a small wheel with a groove around its edge.

### C. Given below is a list of activities. Identify the simple machines which are used to do these activities.

- |                     |   |              |                                    |   |               |
|---------------------|---|--------------|------------------------------------|---|---------------|
| Shaving             | – | <u>Razor</u> | Cutting an apple                   | – | <u>Knife</u>  |
| Splitting a log     | – | <u>Wedge</u> | Fixing two planks of wood together | – | <u>Screw</u>  |
| Sharpening a pencil | – | <u>Blade</u> | Drawing water from a well          | – | <u>Pulley</u> |
| Lifting an ice cube | – | <u>Tongs</u> | Pushing a heavy box up a truck     | – | <u>Ramp</u>   |

D. Identify the kinds of levers given below. Also mark the fulcrum (F), load (L) and effort (E).

First class lever

First class lever

Second class lever

Second class lever

Third class lever

First class lever

E. Answer these questions.

1. What is a force?

**Ans.** A force is a pull or push applied on an object.

2. What are the effects of force?

**Ans.** Following are the effects of force:

A force can

- make an object move.
- stop a moving object.
- change the direction.
- slow down or speed up a moving object.
- change the shape and size of an object.

3. What do you understand by the following forces? Give one example where these forces are used.

- (a) muscular
- (b) frictional
- (c) buoyant

**Ans.** (a) The force applied by muscles is called muscular force. Muscular force is applied when we push, pull or lift something.

(b) A force which opposes the motion of an object and acts in the opposite direction of motion is called frictional force or friction. Friction is used when a ball rolling on the ground moves some distance and finally stops.

(c) An upward push of a liquid on an object which keeps the object afloat is called buoyant force. Buoyant force is used when something floats on water.

4. What is energy?

**Ans.** The ability to do work is called energy.

5. Name different forms of energy.

**Ans.** Different forms of energy are electrical energy, wind energy, solar energy, kinetic energy, potential energy, hydro energy, sound energy and heat energy.

6. Define lever. How many types of levers are there and what is the difference between them?

**Ans.** A lever is a rigid rod which can turn about one fixed point.

Depending on the position of the fulcrum, load and effort, levers are of three types—first class levers, second class levers and third class levers.

(a) In a first class lever, fulcrum is between load and effort.

(b) In a second class lever, load is between fulcrum and effort.

(c) In a third class lever, effort is between fulcrum and load.

7. What is an inclined plane? What is it used for?

**Ans.** A sloping surface that reduces the effort required to lift a load is called an inclined plane. It is used as a ramp in hospitals, hotels, airports, etc., to drive the vehicles up, for loading and unloading heavy goods from trucks and on mountains as slopy roads for vehicles to climb up easily.

8. What is a wedge?

**Ans.** A wedge is a simple machine having two inclined planes joined back to back with a sharp edge. It has both a blunt end and a sharp end.

9. What is a screw? Why is it called the modification of an inclined plane?

**Ans.** A screw is a simple machine that resembles a nail with grooves in it. It is called the modification of an inclined plane because it is actually an inclined plane wrapped around a rod.

#### **F. Give reasons for the following.**

1. Carpenters use screws instead of nails to join two pieces of wood. Why?

**Ans.** A screw fixes two pieces of wood better than a nail. It is because a screw has grooves in it.

2. A man wants to move a big boulder. As a passerby what would you suggest him?

**Ans.** The man can use a lever (i.e., a strong rod) to move the big boulder.

3. The soles of our shoes wear out after some time. Why?

**Ans.** The force of friction acts between the soles of shoes and ground. It opposes the motion of the shoes and the shoes get rubbed against hard surface of ground.

4. Which force enables you to hold a paper in your hand?

**Ans.** Frictional force helps to hold a paper in the hand.

# The Universe

## ANSWERS

### WARM UP

The Earth as seen from the Moon

### CHECKPOINT 1

**Answer in one word.**

- |                                                                      |                |
|----------------------------------------------------------------------|----------------|
| 1. It is at the centre of solar system.                              | <u>Sun</u>     |
| 2. Earth's only natural satellite.                                   | <u>Moon</u>    |
| 3. Type of objects which form shadows.                               | <u>Opaque</u>  |
| 4. A phenomenon when one celestial body blocks the light of another. | <u>Eclipse</u> |
| 5. The regular rise and fall of ocean water on the earth.            | <u>Tide</u>    |

### CHECKPOINT 2

**Name these.**

- |                                        |                      |
|----------------------------------------|----------------------|
| 1. First artificial satellite launched | <u>Sputnik-1</u>     |
| 2. First Indian satellite launched     | <u>Aryabhata</u>     |
| 3. First person to go into space       | <u>Yuri Gagarin</u>  |
| 4. First Indian to go into space       | <u>Rakesh Sharma</u> |

### CHECK YOUR STUDY

**A. Fill in the blanks.**

1. The large circular hollows on the moon are called craters.
2. A total solar eclipse occurs when the moon covers the sun completely.
3. During a lunar eclipse, the earth comes between the sun and the moon.
4. The highest tides occur at new moon and full moon day.
5. Military satellites are often called spy satellites.

**B. Write True or False.**

- |                                                          |              |
|----------------------------------------------------------|--------------|
| 1. The universe is a wide-open space.                    | <u>True</u>  |
| 2. There is evidence of water at the poles of the moon.  | <u>True</u>  |
| 3. We can live on the moon because it has an atmosphere. | <u>False</u> |

4. We can jump higher on the moon than on the Earth. True
5. The highest tides are caused on a no moon day. True

**C. Name the following.**

- |                                                       |                        |
|-------------------------------------------------------|------------------------|
| 1. First woman of Indian origin to go into the space  | <u>Kalpana Chawla</u>  |
| 2. Second woman of Indian origin to go into the space | <u>Sunita Williams</u> |
| 3. A weather satellite                                | <u>METSAT</u>          |
| 4. A scientific research satellite                    | <u>Rohini</u>          |
| 5. A communication satellite                          | <u>APPLE</u>           |
| 6. A military satellite                               | <u>CARTOSAT</u>        |

**D. Tick (✓) the correct answers.**

1. The natural satellite of the earth is the  
 (a) sun (b) moon  (c) planet (d) star
2. Which of the following is not present on the moon?  
 (a) craters (b) atmosphere   
 (c) gravity (d) heat
3. What is the gravity on the moon as compared to that of the earth?  
 (a) one-eighth (b) one-fifth (c) one-sixth  (d) one-fourth
4. Which type of objects form shadows?  
 (a) opaque (b) translucent  
 (c) transparent (d) both (a) and (b)
5. Tides are caused by the gravitational pull of the  
 (a) stars (b) moon   
 (c) earth (d) moon and earth

**E. Answer these questions.**

1. What is the sun? How is heat and light produced in the sun?

**Ans.** The sun is a star. It is a huge hot ball of burning gases.

Inside the sun, hydrogen gas changes into helium gas producing a lot of heat and light.

2. What causes the moon to shine?

**Ans.** The moon shines when the sun's light falls on its surface and is reflected back to the earth.

3. What are the solar and lunar eclipses?

**Ans. Solar eclipse:** When the moon comes between the sun and the earth, it casts a shadow on the earth. To the people who fall under this shadow, the sun gets blocked. This is called solar eclipse.

**Lunar eclipse:** When the earth comes between the sun and the moon, the light from the sun to the moon is blocked. The shadow of the earth falls on the moon due to which the moon gets darkened. This is called lunar eclipse.

4. What is a tide? How are high and low tides caused?

**Ans.** A tide is a regular rise and fall of ocean water due to gravitational pull by moon on the earth. High tides are caused when ocean water on the moon-facing side of the earth is attracted upwards. Low tides are formed when the ocean water on the side of the earth facing away from the moon rushes towards the moon-facing side of the earth.

5. What is an artificial satellite?

**Ans.** An artificial satellite is a man-made object that continuously moves in the orbit of the earth or some other body in the space.

6. What are the types of artificial satellites? Give one example of each.

**Ans.** Following are the types of artificial satellites.

(a) **Weather satellites** – Example: METSAT (KALPANA-1)

(b) **Scientific research satellites** – Example: Rohini.

(c) **Communication satellites** – Example: APPLE.

(d) **Military satellites** – Example: CARTOSAT.

(e) **Navigation or GPS satellites** – Examples: IRNSS1I.

(f) **Earth observing satellites** – Example: RESOURCESAT-1.

**F. Give reasons for the following.**

1. You cannot have conversation with your friend on the moon.

**Ans.** Sound waves need air (a medium) to travel and there is no air on the moon.

2. Satellites are a great help to sailors.

**Ans.** Sailors get help from the navigation or GPS satellites for knowing their location on the earth.

# Natural Disasters

## ANSWERS

### WARM UP

Due to continuous heavy rain.

### CHECKPOINT 1

#### **State True or False.**

1. A natural disaster may occur at any time. True
2. The crust is the hottest layer of the earth. False
3. The earthquakes that measure 5 or 6 on the Richter Scale cannot be felt. False
4. The study of volcanoes is called seismology. False
5. Volcanoes that have not erupted in recent years but may erupt in the future are called active volcanoes. False

### CHECKPOINT 2

#### **Fill in the blanks.**

1. Tsunami waves are also known as tidal waves or storm waves.
2. Floods are caused due to heavy rains.
3. Floods cause soil erosion.
4. Droughts can be prevented by harvesting the rainwater.

### CHECK YOUR STUDY

#### **A. Fill in the blanks.**

1. The sudden shaking of the ground is called an earthquake.
2. The earth's crust is made up of many rock plates.
3. The tunnel of a volcano is known as vent.
4. Hot molten rock that comes out on the ground is called lava.
5. Tsunami causes destruction in coastal areas.

**B. Match the columns.**

- | Column A      | Column B                               |
|---------------|----------------------------------------|
| 1. Tsunami    | (a) Eruption of lava                   |
| 2. Earthquake | (b) Water overflowing from rivers      |
| 3. Floods     | (c) Absence of rains for a long period |
| 4. Drought    | (d) Tidal waves                        |
| 5. Volcano    | (e) Shaking of the earth's surface     |

**C. Tick (✓) the correct answers.**

- An earthquake is measured on a  
(a) Metre scale  
(b) Richter scale   
(c) pH scale  
(d) Mohs scale
- The molten rocks under the earth's crust are called  
(a) Magma   
(b) Lava  
(c) Seismogram  
(d) Vent
- Seismograph is an instrument that measures  
(a) Tsunamis  
(b) Floods  
(c) Earthquakes   
(d) Droughts
- Which of these are caused due to heavy rainfall?  
(a) Earthquake  
(b) Drought  
(c) Floods   
(d) Volcanoes
- Which of these can lead to drought-like conditions?  
(a) No rain for a long period  
(b) Very high temperature  
(c) Hot and dry winds  
(d) All these

**D. Name the following.**

- Huge storm waves caused in the sea in coastal regions Tsunami
- A device used to measure the intensity of an earthquake Seismograph
- The mass of molten rocks under the surface of the earth Magma
- Absence of rains over a long period of time Drought
- The only active volcano in the Indian subcontinent Barren island

**E. Answer these questions.**

1. What do you understand by a natural disaster?

**Ans.** A natural event that causes harm to human life, property, animals and the environment is called a natural disaster.

2. What is an earthquake? On which scale is it measured?

**Ans.** An earthquake is the sudden shaking of ground due to vibrations deep inside the earth. It is measured on Richter Scale.

3. What are the different layers of the earth? Explain.

**Ans.** The different layers of the earth are the crust, the mantle, the outer core and the inner core.

(a) The crust is the outer layer where we live. It is made up of many rock plates.

(b) The next layer is mantle which is made up of semi-molten rocks.

(c) The outer core is very hot and consists of molten metals such as iron and nickel.

(d) The inner core is the hottest layer of the earth and is made up of solid iron. It forms the centre of the earth.

4. What is a seismograph? What is it used for?

**Ans.** A seismograph is an instrument which is used to detect and record seismic waves generated due to an earthquake.

5. What is a volcano? What are its types?

**Ans.** A volcano is an opening on the earth's surface through which hot and molten rocks, ash and gases erupt from inside the earth. There are three types of volcanoes. They are active, dormant and extinct volcanoes.

6. Give two examples of each (a) active volcano, (b) dormant volcano, (c) extinct volcano.

**Ans.** (a) Active volcano – Barren Island, Mount Fuji

(b) Dormant volcano – Mount Kilimanjaro, Mount Edziza

(c) Extinct volcano – Mount Buninyong, Mount Kulal

7. How are tsunamis caused? What are its effects?

**Ans.** Tsunamis are caused by an undersea earthquake or by a severe hurricane or cyclone. They cause destruction of life and property in the area near the seashore.

8. Define flood. Write two harmful effects of flood.

**Ans.** The condition of continuous heavy rains for many days, causing rivers to overflow and submerge nearby areas is called flood.

Two harmful effects of flood are:

● Floods damage the crop fields, submerge many areas causing great loss to life and property.

● Floods wash away the upper fertile layer of soil causing soil erosion.

9. How can floods be prevented?

**Ans.** Floods can be prevented by growing more trees, building dams and embankments on the rivers.

10. What is a drought? Why is a drought caused?

**Ans.** A condition of less or no rains over a long period of time is called drought.

A drought is caused by a large-scale cutting of trees, grazing animals on the same land and overploughing of a crop land.

E. In the following wordsearch, find eight terms that you have read in this lesson.

B	U	M	A	J	Q	C	L	V	R	T
V	C	R	U	S	T	X	M	W	F	S
E	A	R	T	H	Q	U	A	K	E	U
N	T	Q	F	N	O	R	G	L	G	N
T	D	Y	T	P	E	J	M	X	P	A
L	Q	M	L	B	S	L	A	V	A	M
N	F	L	O	O	D	S	V	B	R	I
K	Z	U	J	I	T	A	H	W	A	Q
S	E	I	S	M	O	G	R	A	P	H

G. How can you say that floods cause soil erosion?

Ans. The upper fertile layer of soil gets washed away with flood water. This causes soil erosion.

H. Growing more and more trees can prevent droughts. How?

Ans. Growing more and more trees can prevent droughts because trees give out water vapour and help in bringing rains.

# MODEL TEST PAPER

Time: 1 Hour

Maximum Marks: 50

**A. Give one word for the following.**

(5)

1. Moulds and mushrooms produce this for reproduction
2. Moving of loose rocks down a slope of a hill
3. The energy that we get from the sun
4. The only natural satellite of the Earth
5. The layer of the Earth made up of semi-molten rocks

Spores  
Landslide  
Solar energy  
Moon  
Mantle

**B. Match the columns.**

(5)

- | Column A      | Column B             |
|---------------|----------------------|
| 1. Fish       | (a) Igneous rock     |
| 2. Scoria     | (b) Earthquakes      |
| 3. Slate      | (c) Gills            |
| 4. Seismology | (d) Volcano          |
| 5. Magma      | (e) Metamorphic rock |

**C. Write True or False.**

(5)

1. There are 24 pairs of ribs in human body.
2. The protection of soil against soil erosion is called weathering.
3. A wedge has two inclined planes joined back to back with a sharp edge.
4. We can jump higher on the moon than on the Earth.
5. The crust is the hottest layer of the Earth.

False  
False  
True  
True  
False

**E. Draw and label the diagrams.**

(8)

1. Formation of solar eclipse

Ans.

2. A pulley with a rope passing through it

Ans.

F. Fill in the blanks.

(6)

1. Fats contain double the amount of energy as compared to carbohydrates.
2. The atmosphere extends up to a height of 800 km.
3. A new substance is formed in a chemical change.
4. The energy possessed by an object due to its position is called potential energy.
5. Floods are caused due to heavy rains.
6. The tunnel of a volcano is known as vent.

G. Answer these questions.

(10)

1. What is a force? What are its effects.

Ans. A force is a pull or push applied on an object.

Following are the effects of force:

- A force can make an object move.
- Stop a moving object.
- Change the direction.
- Slow down or speed up a moving object.
- Change the shape and size of an object.

2. How are high and low tides caused?

Ans. High tides are caused when ocean water on the moon-facing side of the earth is attracted upwards. Low tides are formed when the ocean water on the side of the earth facing away from the moon rushes towards the moon-facing side of the earth.

3. What is a lever? How many types of levers are there? Name them.

Ans. A lever is a rigid rod which can turn about one fixed point.

Depending on the position of the fulcrum, load and effort, levers are of three types—first class levers, second class levers and third class levers.

4. What do you mean by a natural disaster?

Ans. A natural event that causes harm to human life, property, animals and the environment is called a natural disaster.

5. What is a volcano? What are its types?

**Ans.** A volcano is an opening on the earth's surface through which hot and molten rocks, ash and gases erupt from inside the earth. There are three types of volcanoes. They are active, dormant and extinct volcanoes.

**H. Tick (✓) the correct answers.**

**(6)**

1. Which of the following is a bacterial disease?

- (a) Dengue (b) Polio  
(c) Common cold (d) Cholera ✓

2. Which of the following is a crack or a break in a bone?

- (a) Fracture ✓ (b) X-ray  
(c) Splint (d) Sling

3. Gneiss glitters because of

- (a) Mica ✓ (b) Slate  
(c) Shale (d) Granite

4. Tides are caused by the gravitational pull of the

- (a) Stars (b) Moon ✓  
(c) Earth (d) Moon and Earth

5. An earthquake is measured on a

- (a) pH scale (b) Metre scale  
(c) Time scale (d) Richter scale ✓

6. Which of the following is not a layer of the Earth?

- (a) Core (b) Mantle  
(c) Vent ✓ (d) Crust
