

How We Travel

LESSON PLAN

SPECIFIC OBJECTIVES

The students will learn about

- what transport is
- need of transport
- land transport
- water transport
- air transport
- some rules of road safety

TEACHING AIDS

Chart papers, flashcards, blackboard, chalk, duster, pointer, etc.

TEACHING STRATEGY

- First, the teacher will ask the students to solve the exercise given in Warm Up.
- Tell about what transport is.
- Tell about the need of transport.
- Tell about land, water and air transport.
- In the last, tell about road safety rules.

BOOST UP

- The teacher may show chart papers.
- The teacher may show flashcards of different vehicles.
- The teacher may tell about traffic rules in detail.
- Ask the students to solve the exercises to evaluate their given knowledge.
- Initiate a discussion on the topic given in HOTS.
- Tell the students about eco-friendly transport systems, public transport systems and eco-friendly vehicles.

EXPECTED LEARNING OUTCOMES

The students will be able to learn about

- what transport is
- need of transport
- land transport
- water transport
- air transport
- some rules of road safety

EVALUATIVE QUESTIONS

The teacher may ask the following questions to evaluate the students.

1. What is transport?
2. Which city of India has monorail service?
3. Name three means of air transport.
4. Write three road safety rules.
