

7. Public Property is Your Own Property

Worksheet 1

COMPREHENSION

Nehru Park is a wonderful place to visit. There are grassy mounds, jogger's paths, benches and trees all over it. People visit it all through the day. Many groups do yoga early morning. Joggers can be seen running silently around the paths, some with music plugged into their ears. We see people sitting on the lawn or on the benches, chatting, reading or just enjoying a quiet time.

Flowers come up in the park during winter. Every month, a music concert is held in the park. People come from all over the city. They sit on chairs and on the lawn, enjoying the music in the open air as the sun sets over the city. As winter slowly changes into summer, there are great flowering trees in bloom—the gulmohar, the laburnum and the jacaranda trees. The park helps everyone to relax and enjoy the beauty of nature right in the heart of the busy city of Delhi.
