

# 1

## Decoding Intelligence

### LEARNING OUTCOMES

At the end of the chapter, students will be able to:

- › understand the concept of intelligence
- › understand and define intelligence
- › differentiate between different types of intelligence
- › differentiate between different types of learning styles and learners

### CHAPTER NOTES

- › Intelligence is the ability to learn, understand, and apply knowledge.
- › We can improve the capacity of our brains by solving problems and puzzles.
- › There are nine types of intelligence.
- › Naturalistic and Existential intelligence were added by Howard Gardner later.
- › Visual, Auditory, Read/Write and Kinesthetic are four types of learning styles.
