

11

My Family

LESSON PLAN

SPECIFIC OBJECTIVES

The students will learn about

- ▶ family, i.e., the meaning and significance of family
- ▶ the different kinds of family
- ▶ the members of family

TEACHING AIDS

A chart paper having a picture of a family, blackboard, chalk, duster, pointer, etc.

TEACHING STRATEGY

- ▶ The teacher will start the lesson with the maze given in 'Warm Up'.
- ▶ The teacher, then, will explain the meaning and significance of family.
- ▶ The teacher, then, will introduce the members of a family.

BOOST UP

- ▶ The teacher may give his/her students a little knowledge about family relationships (among members)
- ▶ The teacher should explain the terms, small family, big family and joint family. He/She may use suitable pictures for this.
- ▶ The teacher should inculcate this fact in his/her students that a pet or a domestic animal is also a member of the family.
- ▶ The exercises will help the teacher judge his/her students.

EXPECTED LEARNING OUTCOMES

The students are able to

- ▶ learn what a family is
- ▶ know the different types of families.
- ▶ learn about members of a family.
- ▶ learn about the family relationship

EVALUATIVE QUESTIONS

The teacher may ask the following questions to his/her students to evaluate their learning.

- ▶ What do you mean by family?
- ▶ Who live in your family?
- ▶ What is a joint family?
- ▶ What is a small family?
- ▶ Should family members help each other? Why?
