

## 8. 'I Don't Have a Flower'

# WORKSHEET 1

### COMPREHENSION

**Read the following passage and answer the questions that follow.**

Flowers are one of the most beautiful creations of nature. They come in various shapes, sizes, and colours, each with its unique fragrance. Flowers like roses, tulips, sunflowers, and lilies are popular for their beauty and symbolism. They are often used to express emotions, decorate homes, and celebrate special occasions. Flowers attract bees, butterflies, and birds, playing an essential role in pollination, which helps plants reproduce. Many flowers also have medicinal and culinary uses. For instance, lavender is known for its calming properties, and marigolds are used in traditional remedies. Flowers brighten our surroundings and bring happiness and peace to our lives. Taking care of flowers requires sunlight, water, and proper soil, making them a joy to grow and cherish.

#### A. Answer the following questions.
